MURDOCK SPEAKS AT CHAUTAUQUA

ACTIVE KANSAN WILL DELIVER "RED HOT" MESSAGE TOMORROW.

CHICAGO JURIST AND 'FUNNY MAN' TODAY

Judge Marcus A. Kavanagh Speaks This Afternoon, Beauchamp Tonight—Ticket Prices Up.

Saturday, August 7.

7:30 p. m.—Music by The University Girls.

8:15 p. m.—Fun and Philosophy, "Take the Sunny Side," by Lou J. Beauchamp.

Sunday, August 8.

2:30 p. m.—Male Quartet Melody by The Orphean Musical Club.

3:00 p. m.—Address, "National Bad Habits," by Congressman Victor Murdock of Kansas.

4:15 p. m.—Vesper service, address by W. B. Dickinson.

7:30 p. m.—Musical and Art program by The Orphean Musical Club.

8:15 p. m.—Interpretative reading, "The Melting Pot," by Arthur Kachel.

Monday, August 9.

9:40 a. m.—The Junior Chautauqua. A Trip to Europe.

10:30 a. m.—Special address, "Solving the Rural Church Problems," by H. R. McKeen.

2:30 p. m.—Popular musical festival by Bohumir Kryl's Concert Band.

7:30 p. m.—Entertainment triumph by Kryl and his band.

The Maryville Chautauqua started off on its second day's journey this morning with a full house, just as yesterday, nearly every seat being filled. The price for season tickets was raised from $1.50 to $2 at noon today, as scheduled. About 1,000 were sold, making an aggregate total of $1,500, or enough to cover the entire guarantee of the twenty-five business men who "backed" the proposition.

The first Junior Chautauqua for children was held this morning preceding the address by Yutaka Minakuchi, a Japanese scholar and orator, who spoke on "The Men and Religion Forward Movement."

This afternoon's program was started off at 2:30 o'clock with a half hour's treat by the University Girls, in both instrumental and vocal music. Judge Marcus A. Kavanagh, judge of the superior court of Cook county, Illinois, followed with an address on "Traitors to Justice," in which he flayed the men "higher up," and urged all citizens to stand by the laws of the country and state, even though some appear too harsh or arbitrary.

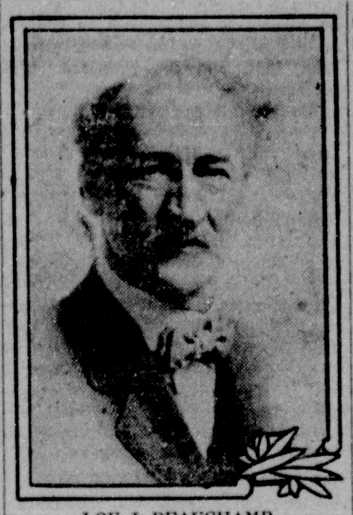
VICTOR MURDOCK.

Tomorrow a "Big" Day.

Lou J. Beauchamp, "the funny man" of the Chautauqua, will entertain the Chautauqua audience tonight with an address on "Take the Funny Side." The University Girls will precede him with an hour's musical entertainment.

Tomorrow will be a "full' day at the Chautauqua grounds. There will be no regular morning program, but in the afternoon Victor Murdock, former congressman of Kansas, a newspaper publisher, and one of the leaders in the "Bull Moose" party, will take the platform. His address is entitled "National Bad Habits," and is slated to be one of the best numbers of the entire week's program.

Dr. W. B. Dickinson will follow him with a vesper service address, while the Orphean Musical club will give a musical and art program, and Arthur Kachel will give an interpretative reading of "The Melting Pot" at night.



LOU J. BEAUCHAMP.

Monday Kryl's Concert band will be the big attraction, both afternoon and night.

Opening Number Was Good.

The opening number of the Chautauqua yesterday afternoon was unusually good. The Old Home Singers drew aside the curtains with a half-hour's prelude of musical entertainment. The singers consist of Miss Helen Smith, soprano; Miss Pearl Maupin, contralto; C. M. Williams, tenor; Harold King, bass, and Miss Clara Crangle, accompanist. Their program consisted of:

"Maryland, My Maryland," quartet.

"Whispering Hope," Miss Smith and Miss Maupin.

"Old Black Joe," quartet.

"Grey Home in West," Miss Smith.

"Low-Backed Car," Mr. Williams and Mr. King.

"Come Back to Erin," quartet.

"In 1822," Miss Maupin.

Quartet from "Rigoletto."

Kansan Urges Temperance.

The address by Judge Schoonover of Kansas yesterday afternoon was a strong, practical message from a man who has been educated in the school of hard knocks; from a man who has not been a model citizen all his life, but who is redeeming the part of his past which he regrets by helping others.

Mr. Schoonover is a judge in the court of appeals of Kansas, was for eight years a county prosecutor, and knows much of human nature and human frailties. He is a very strong advocate of local, state and national prohibition. To this position he has been converted by observation of the benefits derived from prohibition in his own state.

He admits that he voted against prohibition in Kansas when that issue was up thirty-five years ago. In his opening remarks, the judge stated that he was a native of Missouri, and paid a very high compliment to our state. He said, however, that Kansas has more wealth per capita than any other state in the Union.

It was a good, wholesome sermon from a practical business man, and delivered in a forceful, convincing manner. His address was especially directed to the young man.

12 TUTORS SEEK CERTIFICATES.

W. M. Oakerson Examines Those Desiring State "Passes"—Some Live in County.

An examination of twelve teachers of northwest Missouri, who seek state teachers' certificates, was held yesterday and today at the Normal school, under the direction of W. M. Oakerson, chief clerk in the state department of public instruction.

Mr. Oakerson will remain in Maryville over Sunday to visit friends and attend the Chautauqua.

The quizzes are for those seeking life certificates and also for those merely writing for five-year certificates. The following persons are taking the quizzes:

D. D. Hooper, Barnard; Birdie Ray, St. Joseph; Frank Wesley Baker, Graham; Opal Key, Maryville; Grace McFarling, Rock Port; R. O. Evans, Gainsville; Ruth Linville, Dawn; Lucy Wanamaker, Chillicothe; Ruby Hays Ruddell, Maryville; Bert E. Morgan, Jamison; W. I. Cox, Mercer, and Mrs. Ed Malotte, Edgerton. Mr. Baker and Miss Key have completed the work for five-year state certificates.

Market Live Stock.

Collins Bros., W. H. Anderson, L. D. Hill, Ed Atkins, Horton & Douglass, T. Kenon, W. F. Kennedy and J. W. Millbank were patrons to the St. Joseph market yesterday from Nodaway county.

Returns to St. Joseph.

Miss Myrtle Petree of St. Joseph, who has been attending the summer term of the Normal, returned to her home yesterday.

SLAVS FALL BACK

RUSSIANS LEAVE ALL VISTULA LINE EXCEPT NOVOGEORGIEVSK.

IVANGOROD IS TAKEN

Teutons Plan to Advance Into Heart of Empire, Belief—Von Buelow Menaces Enemy From North.

London, Aug. 7.—With the exception of the great entrenched camp of Novogeorgievsk, the Russians have evacuated the whole line of the Vistula river, Ivangorod, the southern fortress, having fallen into the hands of the Austro-German armies. The Russians are now making their way eastward to the Brest-Litovsk line

The decision of the general staff to leave the garrison in Novogeorgievsk is announced in Petrograd dispatches. The object is to deprive the Germans of the use of the railway communications and of the Vistula river for bringing up supplies for their armies.

Novogeorgievsk is situated at the junction of the Vistula, Narew and Wkra rivers to the northwest of Warsaw. It has two powerful bridgeheads eight citadels and seventy-four redoubts containing eleven and twelve-inch batteries.

Could Hold Out Months.

It is calculated by military observers here that an army corps can hold out there for many months as the camp is protected by massive earth works.

The laying of siege to Novogeorievsk may prove one of the most interesting operations of the war, as it doubtless will show whether earthworks are less susceptible to the fire of high explosives than are cupola forts.

Of the retiring Russian armies the official reports say nothing. The Russians, however, destroyed bridges over the Vistula and took other means to place obstacles in the path of their pursuers, while others of their forces continue to offer stubborn resistance to the Germans and Austrians south and north who are trying to forge a ring around them.

The general opinion here is that the Russians commenced their retirement in time to escape this inner ring, but they have yet to reckon with the wider outflanking movement from Lomza which, if successful, would win the Brest-Litovsk line.

Danger From North.

An even more serious menace seemingly is General von Buelow's advance in the Baltic provinces. While, according to Petrograd the Germans have been thrown back immediately south of Riga, they have made a further advance east to Poniewesch toward the Dvinsk-Vilna-Petrograd railway.

Some critics believe this move means that the Germans, unless they succeed in smashing the Russian army, intend to make a further advance further [illegible] Russia and endeavor to force Emperor Nicholas to accept a separate peace. With the history of previous invasions of Russian before them, however, it is believed in other quarters that the German staff would hesitate at such a tremendous undertaking.

Along the western front the Germans have made a series of attacks, but all of them, according to the French report, were repulsed.

SEEK HELP IN WEED CUTTING

Club Women Ask for Notification of Overgrown Premises—Committee Doing Much Work.

A lack of co-operation in numerous instances in the matter of registering complaints with the club women has kept the City Federation committee from accomplishing as quick work as it had hoped to do in doing away with all weeds and the cleaning out of unsightly spots in the city.

Wherever cases of negligence in this line were brought to the notice of the club women, prompt action has been taken and the weeds cut and premises cleaned. It is impossible for the committee to visit all places in the city, and property owners adjacent to such overgrown and ill-kept tracts are asked to assist the women by reporting these places to Mrs. W. A. Miller, 222 South Main street, when the matter will be promptly taken up.

This work is necessary for sanitation and health, and much has been done by the club women since the matter was turned over to them. Every individual should feel a personal responsibility in the cleanliness and beauty of the city and co-operate with the club women by reporting all unsightly or overgrown properties to the committee.

Guests of Senator Craig.

Mrs. Arthur Still Craig of Kansas City is visiting Mr. Craig's parents, Senator and Mrs. Anderson Craig, and his sister, Mrs. C. H. Coe, and family.

END TEACHERS' QUIZ TODAY

Examination of Tutors Desiring Certificates Closes This Afternoon—Next in March.

The county examination of teachers who desire first, second or third grade county teacher's certificates, which was begun yesterday in the rooms of the Maryville Business College will end this afternoon. Seventy-five were enrolled yesterday, while several more came in today.

The examination is being conducted by Mrs. O. C. Hanna, for County School Superintendent Bert Cooper, who returned today from Gaynor City where he has been since his mother's death a few days ago. There will be no more examinations until next March.

Those taking the quizzes are being examined on the following subjects today: Civil government, U. S. History, agriculture, algebra, advanced science, physiology, writing, pedagogy, literature, advanced history.

COMMANDS 12 DRILL TEAMS

Ezra Phipps Assumes Charge of Regiment W. O. W. Companies—May Become Colonel.

With the resignation of Major Thomas of St. Joseph as commander of the Second regiment drill teams of the Woodmen of the World, Ezra Phipps of Maryville assumes charge of the entire twelve companies of this regiment, according to notice received by Mr. Phipps from Major A. Linxwiler, brigade adjutant, of Jefferson City.

These companies or drill teams are located one each in Trenton, Macon, Cameron, Maitland, Hemple, Stanberry, Brookfield, Maryville, Chillicothe and Marceline and two in St. Joseph. C. W. Bennett commands the drill team here.

Promise is made that Mr. Phipps will be recommended for the position of colonel of the Second regiment, if a good showing is made by these twelve companies at the tri-state meeting in Nevada next month. This would cause the removal of headquarters to St. Joseph.

Phipps became regimental adjutant last fall.

BOOST CLARINDA FAIR.

Hold Exhibition August 24-27—Beat Others in Publicity.

Posters advertising the Clarinda, Ia., fair, to be held August 24 to 27 inclusive, were placed in Maryville yesterday. The Clarinda leaders seem to be great boosters.

Their Chautauqua was perhaps the best advertised one in this part of the country, yet their talent is not so good, seemingly, as that furnished by the Redpath-Vawter company, which furnishes the talent for the Maryville Chautauqua.

NORMAL TUTOR GOES HOME.

George Palfreyman Will Return for Booster Base Ball Games, However.

George Palfreyman, assistant in manual training and physical education in the Normal, left yesterday afternoon for his home in St. Joseph to spend a month's vacation. Mr. Palfreyman will return for the Booster ball games the remainder of this month. He plays the position of shortstop.

He will return to the Normal in September to resume his work.

OPERATION PROVES SUCCESSFUL.

Ralph Farmer Will Regain Eyesight—Is at Methodist Hospital in Omaha.

Mrs. S. E. Farmer received word this morning from Mr. Farmer, who is at Omaha with their son, Ralph E. Farmer, while the young man takes treatment for an injury to his eye, that the operation which he underwent recently was very successful and, unless complications arise, the sight will be restored.

Ralph has been in the Methodist hospital at Omaha while being treated. His father expects to bring him home tonight.

About ten days ago, while in company with several companions engaged in target practice, a shell exploded and a small particle penetrated the young man's eyeball, causing a severe injury and threatened the loss of his sight.

Scalds Foot by Hot Water.

Miss Frankie Masters, living five miles southwest of Maryville, had her left foot badly scalded yesterday afternoon, when a tea kettle full of boiling water fell off a chair and upset.

Return to Denver.

Anthony Blatter and Joseph Dailey of Denver, Col., who have been visiting at the home of Mr. Blatter's parents, Mr. and Mrs. Theodore Blatter, left this morning for their home.

JOIN IN SERVICES

CHURCHES UNITE IN MORNING WORSHIP AT CHAUTAUQUA.

DR. DICKINSON SPEAKS

Will Hold Sunday School in All Churches at Usual Hour—Night Meetings Deferred.

A union service in which the congregations of the Presbyterian, Baptist, First Methodist, Christian and Buchanan Street Methodist churches will join will be held at 11 o'clock tomorrow morning at the Chautauqua tent. There will be no services Sunday in any of the churches mentioned with the exception of Sunday school, which will convene at the usual hour tomorrow morning.

The Rev. W. B. Dickinson will make the address at the union service, and the music will be given by the Orphean Musical club, which furnishes the music for the Chautauqua tomorrow. Mr. Dickinson is associate secretary of the Playground and Recreation Association of America and is a man of wide experience.

Other Ministers Assist.

The Rev. S. D. Harkness, pastor of the First Presbyterian church, and the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church, will each have a part in the Sunday morning program at the union meeting. The other pastors are out of the city, the Rev. R. L. Finch at the Minister's Retreat, at Camden Point; Rev. G. S. Cox is visiting relatives at Kansas City, on his annual vacation, and Rev. Lewis M. Hale is at Ironton, Mo., attending the annual B. Y. P. U. convention.

The congregations of St. Mary's and St. Patrick's Catholic churches and the First Church of Christ, Scientist, will hold their usual services of the day tomorrow.

The evening worship in the other churches of the city will be deferred on account of the Chautauqua program to be given at the tent.

This service will begin at 7:30 o'clock with a musical program given by the Orphean Musical club, and at 8:15 o'clock Mr. Arthur Kachel will give an interpretative reading, "The Melting Pot."

TO CALIFORNIA UNIVERSITY.

Ray Cook to Complete Course for B. A. Degree at Berkeley.

Ray Cook and Virgil Lyle started yesterday on a month's western trip. The young men went by the way of Texas and New Mexico, will visit various places of interest through the south and then go to San Francisco and the California cities. Mr. Lyle will return to Maryville in September and Mr. Cook will enter the California state university at Berkeley for the coming year.

Young Cook is a son of Mr. and Mrs. J. F. Cook and was a student at the Missouri state university last year. He graduated from the city high school in 1911, from the Normal school in 1912 and from the Gem City Business college at Quincy in 1913, following this by a year at Columbia. He expects to complete the course for a B. A. degree at Berkeley.

On Three Weeks Vacation.

Miss Eleanor Smith and Miss Alice Porter, teachers in the Maryville Conservatory of Music, left this afternoon for a three weeks vacation trip. Miss Smith will visit her brothers, William and Charles Smith, and other relatives and friends in Kansas City, and Miss Porter will spend the time with friends at Joplin.

Conclude Ross Contest.

The hearing in the suit of George P. Ross against J. F. Roelofson, administrator for the estate of Levi P. Ross, who died recently, which was heard in probate court yesterday, was concluded late yesterday afternoon. No decision will probably be announced by Probate Judge W. H. Conn for several days.

To Visit at Clyde.

Miss Bertha LaBouff of St. Joseph and Miss Birdie Merrigan of Clyde who have been visiting at the home of Misses Ella and Veronica O'Grady, west of Maryville, left this morning for Clyde, where Miss LaBouff will spend a few days with Miss Merrigan.

Leaves Estate to Wife.

Mrs. Lucy E. Charles is named administratrix and is given all property of her husband, Albert L. Charles, southwest of Maryville, who died recently, according to the will filed in probate court today.

HOLD BAKER RITES.

Rev. J. H. Hubbard Conducts Services at Home This Morning.

The funeral services for J. W. Baker, who died Thursday afternoon, were held at the family home, 315 West Second street, at 9:30 o'clock this morning, conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church.

The music was given by a quartet composed of Mrs. Alpha Bishop, Mrs. J. D. Richey, H. J. Becker and W. E. Goforth. The burial was made in Miriam cemetery.

RELEASED IN CASE.

Charge Against Former Maryville Man Dismissed in St. Louis Court.

S. L. Craig, an aged real estate and loan agent of Springfield, Mo., a former resident of Maryville, was released from a charge of embezzlement in the criminal court of St. Louis this week when a demurrer to the state's evidence was sustained.

Craig was accused by Mrs. R. L. Goode, whose husband formerly was a judge in the St. Louis court of appeals and now is dean of the law department of Washington university.

She alleged that Craig embezzled $300 of her funds entrusted to him for the purpose of putting it out at interest. A large shortage was found in Craig's accounts some time ago. It was made good by his daughter's sacrifice of their property to help their father.

INTERVIEW WITH RAINES.

What the President of the Board Says About Saloon Licenses After County Court Had Granted Them.

H. L. Raines, president of the board of aldermen, when seen by a representative of this paper in regard to granting saloon license by the city council, says:

"A month or so ago a saloon license was granted to Wm. Heller, at which time Messrs. McDonald and Peery voted against issuing the license.

"The vote on the issuance of the license does not necessarily express the personal views of the members. They know that the license must be granted and simply feel that they are doing their duty and saving the city an extra expense of having a suit brought against them.

"The question was brought up as it was last night, hoping that Messrs. McDonald and Peery would do their duty and help the rest of us bear the burden."

FARM DWELLING BURNS.

House On George Fred Davis Place Destroyed This Morning.

A two-story frame dwelling on the farm of George Fred Davis, three miles south of the city, was burned about 11 o'clock this morning.

The house was unoccupied at the time of the fire, the family who had been living there moving out yesterday. The fire is supposed to have been caused by mice grawing matches left on the floors. Mr. Davis had an insurance of $750 on the house.

To Visit in Denver.

Ferd M. Townsend has gone to Denver, Col., where he will join Mrs. Townsend and son, who have been spending the past two months with her parents, Mr. and Mrs. Henry Bohm. The Townsends expect to return to Maryville the latter part of next week. They will be accompanied by Mrs. Anna M. Hagins, who has been with them in Colorado..

On Colorado Visit.

Misses Marjorie Wilfley, Dale Hoffman and May Corwin will depart Monday morning on a several weeks trip to Colorado. Miss Wilfley and Miss Hoffman will visit the former's brother, Clifford Wilfley and his wife at Ouray, Col., and Miss Corwin will visit friends at Loveland, Col.

St. Louis Visitors Leave.

Mrs. Charles Lippman and son, Cyrus, of St. Louis, who have been visiting at the home of her parents, Judge and Mrs. C. A. Anthony, and Mr. Lippman's mother, Mrs. Lizette Lippman, left this morning for their home.

BENNETT QUITS; ORDERS 5 WALKS

WILLIAM A. BURRIS BECOMES CITY CLERK TEMPORARILY.

COUNCIL GRANTS BAR LICENSE AFTER FIGHT

John Kane Gets Dramshop Renewal to February on Reconsideration—Approve Addition to Maryville.

What Council Did.

Accepted resignation of Chester Bennett as city clerk, and Mayor appoints William Burris for thirty days to succeed.

Pass ordinances for five new sidewalks.

Receive petition for sidewalk on Halsey from Walnut to alley west of Buchanan.

Order in sidewalk on Short street, First to Second, where ordinance has not been complied with.

Approve of Cedar Summit addition to city of Maryville, west of town, owned by Nathaniel Sisson.

Grant John Kane saloon license until February 6, after fight.

Re-appoint J. H. Killion night patrolman for thirty days.

Hear monthly reports of city officials and departments.

Transfer $200 from cemetery fund to general fund.

Adjourned until Tuesday, August 17, when paving ordinances or remonstrances will be considered.

Chester Bennett resigned as city clerk at the regular meeting of the city council last night and William A. Burris, silo salesman, and formerly night patrolman, was appointed for thirty days by Mayor U. S. Wright to succeed Bennett. The resignation of Bennett becomes effective as soon as Burris qualifies.

Mr. Burris left for Graham yesterday and will not return until tonight but when called by telephone today, said he would accept the appointment.

The resignation of Bennett came after a prolonged fight made against him by six of the eight councilmen. He was appointed city clerk, in April, 1914, for one year, then reappointed from time to time for thirty days, since his appointment.

Fight Saloon License.

Those opposing the reappointment of Bennett, asked that Burt Rowley be named to succeed him.

Those opposing Bennett were: Councilmen Raines, Tindall, Dragoo, Fisher, Garrett and Hahn. Peery and McDonald voted for Bennett each time the proposition came up. Mayor Wright strongly favored Bennett, and refused to appoint Rowley to succeed Bennett.

Bennett is said to have resigned because of a consideration of a traveling position, which he probably will accept soon. But in a way, it means a victory for the opposing faction.

Another logger-head controversy which came up last night was relative to the granting of a dramshop license to John Kane for six months, or until February 6, 1916. In the first presentation all voted no, but Peery and Dragoo, who did not vote.

In a reconsideration of the application later in the meeting, five voted for granting the license, two against and Dragoo, not voting. Those for granting the license in the second vote were Raines, Tindall, Fisher, Hahn and Garrett, while Peery and McDonald, voted against the application. It carried.

Provide New Sidewalks.

The law, however, makes it compulsory where the county court has granted a license, so that it was necessary for the council to reconsider the matter. Peery and McDonald also voted against granting Wm. Heller, a license recently.

Five ordinance bills for ordering in that many sidewalks in the city were passed last night, on presentation of City Attorney W. H. Crawford. A petition signed by ten, was presented for a sidewalk on the south side of Halsey

(Continued on page 2.)

THE WEATHER

Probably local thunder showers this afternoon or tonight; Sunday generally fair; not much change in temperature.

LEAD BREAKS RECORD.

Increase of 100,000 Tons of Refined Lead Produced in 1914.

Lead is one of the first metals that would naturally be associated with an increased consumption in time of war, and yet the exports of lead from the United States to Europe since the war began have not increased in proportion to the increase in exports of zinc and some other metals, and the price of lead instead of being enhanced by the war actually slumped in October to the lowest point reached in the last 15 years.

These and other facts are graphically presented in the advance statement of the production of lead in the United States in 1914, just issued by the United States Geological Survey.

The total production of refined lead from both domestic and foreign ores was 542,122 short tons, compared with 462,460 tons in 1913. The production of refined lead from domestic ores was 512,794 tons, an increase of 100,916 tons over the record figures reached in 1913. This increase was due chiefly to gains in Missouri, about 42,000 tons; in Idaho, 40,000 tons; and in Utah, 18,000 tons.

The exports of lead smelted from foreign ores were 30,944 tons and from domestic lead ores 58,722 tons, a total of 89,666 tons, larger than in any other year since 1911, when the exports of lead aggregated 113,307 tons.

No domestic pig lead had ever been exported from the United States prior to 1914. Generally the price of lead in this country, owing to the tariff, exceeds the price abroad. Lead smelted in bond from foreign ores is therefore exported instead of domestic lead.

Owing to the civil war in Mexico the imports of Mexican ore for the last few years have been much smaller than heretofore, and there was not enough foreign lead in the United States to supply the demand.

Lead was consistently higher in London in 1914 than in New York, and this, together with the scarcity of Mexican lead, caused the large exports of domestic lead.

Illinois Mines Much Coal.

Despite some strikes and other rather unfavorable conditions in 1914, the production of coal for Illinois during the year was 57,589,197 short tons, valued at $64,693,529, according to figures compiled by the United States Geological Survey of Illinois.

This tonnage is well up with the figures of the years of largest production in Illinois. The supply of labor was plentiful and transportation facilities were adequate throughout the year except during the biennial shutdown, which has now become a regular incident of the spring months of the "even" year in Illinois coal mining, which began as usual on April 1, 1914, and lasted in certain districts from 30 to 60 days.

MISSOURI OVER HALF DRY

Voted Out by 50.2 Per Cent, But 16 Counties, 19 Towns and St. Louis Wet.

The recent dry victories in Missouri have pushed the "drys" above the half way mark in the state.

A careful tabulation shows, according to Dr. Albert Bushnell of the Missouri Anti-Saloon League, that more than half the people of the state live in territory that is absolutely dry. For years more than half the territory has been dry, but on account of the large cities a major share of the population has lived in wet territory.

The figures, which include the recent dry victories, show that 50.2 per cent of Missouri's entire population lives in territory that has voted dry and has no saloons.

Between 75 and 80 per cent of the state's territory is dry. Seventy-nine of the 114 counties have voted out the saloon entirely and exist under the stringent local option laws forbiding the sale of liquor.

Nineteen additional counties are all dry except for one town of more than two thousand five hundred population, which under the present law may vote separately from the county. Sixteen counties and the city of St. Louis are the only entirely wet counties in the state.

"With more than half the population of the state now living in entirely dry territory, Missouri is going to take bigger strides than ever in the war to drive out saloons," Doctor Bushnell commented.

Coal Mined in Alabama.

The coal mined in Alabama in 1914 amounted to 15,593,422 short tons with a value at the mines of $20,849,919. This was a decrease as compared with 1913 of 2,085,100 tons, or 11.8 per cent in quantity, and $2,223,805, or 9.68 per cent in value, according to a statement by C. E. Lesher, of the United States Geological Survey.

A Typographical Error.

"Hell on the Wabash," says the Chillicothe Tribune, is supposed to have been inspired by the Wabash river, but a section boss on the "High Line" through Chillicothe says the piece was never written until after the Wabash railroad built its tracks through the Grand River bottom.

Leaves Estate to Wife.

The will of W. M. Cobb, who died recently at Skidmore, was filed yesterday in probate court. It leaves all property, including farm and property in Skidmore, to his wife, Mrs. Mary A. Cobb.

Guests at Swinford Home.

Mrs. E. W. Lyon of Arkoe and Mrs. Gabe Purcell of Bedison came to Maryville today to spend Chautauqua week with their parents, Mr. and Mrs. G. W. Swinford.

Spend Day Here.

Mrs. Theodore Snowberger and daughters, Lucile and Eula, and Mrs. Charles Shambargar, living near Skidmore, spent today visiting in Maryville.

Notice.

My office will be closed until August 23.

Laboratory Tests of Government Determine Tetanus Is Not Thus Attributable.

Interesting scientific studies dealing with the relation of tetanus to vaccination were recently completed by Director John F. Anderson of the hygienic laboratory, U. S. public health service.

Dr. Anderson states that tetanus is never contracted through vaccine virus, and he presents evidence which goes to prove that the limited number of authentic cases developing after inoculation have invariably been due to contamination of the wound subsequent to vaccination.

During the last thirteen years the hygienic laboratory, charged by law with the regulation of the manufacture and sale of vaccines and serums, has examined specifically for the organism of tetanus sufficient vaccine to vaccinate over 2,000,000 persons and in not a single instance was the presence of tetanus bacilli established.

Monkeys, which are susceptible both to vaccination and tetanus, were inoculated with virus heavily contaminated with tetanus spores. While developing "takes" they remained absolutely free from symptoms of tetanus. The same treatment was accorded guinea pigs, equally susceptible to the disease, with similar results.

Moreover the laboratory in several instances fortunately secured the remaining samples of vaccine supposed to have caused tetanus, but examination by the most delicate tests failed to show contamination, conclusively proving that the infection was not contained therein. Records of the army and navy were investigated over a period of eleven years. Not a single case of tetanus, of the eight occuring during that time, was traceable to the 585,000 vaccinations performed.

Since 1904, Anderson has kept accurate records of all cases of tetanus which were supposed to be connected in any way with vaccination and has obtained data covering 41 such instances, 29 of which ended fatally. This is a much smaller number than is commonly supposed. Additional cases were reported, but upon investigation they were found not to be tetanus, or to be clearly attributable to infection through wounds.

These records comprise such data as the number of persons vaccinated, result and character of the operation, the firm manufacturing the virus, and other essential facts. In the majority of the 41 cases studied it was learned that many others were treated with the same lot of virus without harmful effects. This in itself suggests that the vaccine was not the causative factor.

Tests of the virus from the original packages failed to reveal the presence of the tetanus organisms and thus substantiates this conclusion. During the period mentioned, it is estimated from manufacturers' reports that over 31,000,000 people were vaccinated. The investigator concludes that if the virus was responsible infection would have been much more widespread.

Dr. Anderson further shows that under average conditions tetanus develops within 10 days from the receipt of an injury or the time of inoculation. The fact that in the few recorded instances following vaccination indicates that inoculation took place subsequent to the vaccination.

The investigator concludes that where tetanus manifests itself infection is received by contamination of the vaccination wound in the same manner as the infection of any other surgical wound, and that with the ordinary precautionary measures there is not the slightest fear of the development of the disease.

Getting out among the fathers and mothers of the state is the method pursued by Prof. D. R. Haworth of the East Tennessee state normal school, for arousing interest in education. Prof. Haworth and his party recently completed a "campaign" during which they drove 476 miles through eight counties; talked to 21,400 people in 40 rallies; slept in barns or in the school wagon, frequently far from the main road. The educational campaigners had with them a male quartet a string band and three pieces of demonstration apparatus of practical value—a milk tester, a farm gate, and a model of a heating and ventilation system.

First Church of Christ, Scientist.

206 South Main street.

Morning worship at 11 o'clock. Subject of lesson-sermon, "Spirit."

No Sunday night service.

Midweek service at 8 o'clock Wednesday night.

Reading room in Michau building, over Townsend grocery, open each afternoon from 2 till 5 o'clock. Everyone is cordially invited to all services and to the use of the reading room at all times.

The school savings bank of Public School No. 77 of Borough of Queens, New York City, has had $4,800 deposited in it in the three years of its existence. More than half of this amount is still on deposit either with the school bank or with a state savings bank.

BENNETT QUITS

(Continued from page 1.)

street, from the alley west of Buchanan street, west one and one-half blocks to Walnut. The city attorney was instructed to draft such an ordinance for presentation next meeting.

Property owners along Short street from First to Second, who failed to install sidewalks on the west side, as recently ordered, will now have to pay the bill just the same as a result of action of the councilmen last night. The street department will install the walks, then charge it to the owners.

Improve These.

The ordinances for installing new sidewalks as passed last night, provided for the following improvements:

Dewey street—Adjoining two lots on east side of street between First and Second.

Lincoln street—Adjoining four lots on north side of street between Buchanan and Mulberry.

First street—Adjoining two lots on the north side of the William Everhart property between Main and Market.

Third street—Adjoining a half block on north side of street between Market and Vine.

Walnut street—Adjoining half block on east side of Sheriff Edwin Wallace property between Fourth and Fifth.

Add to West Maryville.

A new addition to the city of Maryville was approved by the city council last night. It will be known as the Cedar Summit sub-division, and is owned by Nathaniel Sisson as recently mentioned in the Democrat-Forum. It consists of six lots fronting on Grand Avenue, west of the city, and extends from Fourth or Normal avenue, south one and one-half blocks to the alley between Third and Second.

All but one of the lots will be 100 feet wide and 250 feet deep. One lot will be 220 feet deep. One will be 134 feet wide.

J. H. Killion was reappointed night patrolman for thirty days.

C. W. Lovis, representing the Anderson Fire Truck company of Kansas City, spoke to the council relative to the city buying a new fire truck. He offered one for $4,000 and to take the present one in, on the deal. No action was taken.

Police Court Nets $116.

Reports of Police Judge U. S. Wright and Chief of Police E. C. Moberly showed there were twenty-eight cases in police court during July, netting $116.

Report of James F. Colby, city treasurer for July, shows a total of $287.68 was received.

Report of F. L. Flynt shows only one poll tax was paid in July. It netted $2. They became due in June.

City Clerk Chester Bennett reported the issuance of twenty-nine auto livery licenses from January 1, 1915 to August 1, 1915, netting the city $68. He also reported the receipt of $38.40 for the cemetery fund.

The council transferred $200 from the cemetery fund to the general fund last night.

Adjournment was then taken until Tuesday night, August 17, when ordinance bills for paving streets, recently proposed, will be considered, where sufficient remonstrance has not been made.

Threshing On Sisson Farm.

Paul Sisson has begun threshing the wheat on the Sisson farm, west of the city. Before it was damaged by the storm the Sisson wheat field was one of the finest in the county. George Stafford is superintending the work.

The Rev. and Mrs. L. A. Hughes of Guymer, Okla., are the parents of a son born to them August 3. Mr. Hughes is a son of Mrs. J. M. Hughes of this city.

MAY ADDRESS CLAY COUNTIANS.

Senator Craig Invited to Speak on Land Bank Bill August 26.

Robert C. McIlvain, president of the Pleasant Grove Farmers' club, an organization made up of agriculturists living in and around Kearney, in Clay county, has invited Senator Anderson Craig to the annual outing of that club on August 26 and deliver an address on the working of the new Missouri land bank and the proposed rural credit system.

Through his energetic efforts the bill passed the state senate without opposition. He is thoroughly familiar with the subject.

The annual outing of the Pleasant Grove Farmers' club is a huge event, being attended by farmers and others from Jackson, Lafayette, Ray, Caldwell, Clinton, Buchanan, Platte and Clay counties, many driving and coming in automobiles with their families from a distance of over fifty miles. It is an old fashioned, non-partisan farmers' picnic, and for those reasons it is very popular in that section of Missouri. A year ago, when Governor Elliott W. Major was the chief speaker, the attendance was between nine and ten thousand.

The original intention of the picnic arrangement committee was to have as speaker of the day Colonel Fred D. Gardner of St. Louis, who prepared the present land bank law.

Colonel Gardner will be in California, so Senator Craig will fill the engagement.

This organization is one of the many formed in Missouri in the last five years under the auspices and direction of the state board of agriculture, its object being to promote scientific agriculture and to bring about closer relations between the farmers of Clay county.

A half-penny is one inch in diameter.

File Peter Pearce Will.

The will of Peter Pearce, who died recently at Barnard, as filed in probate court this week, names his daughters, Miss Jennie M. Pearce and Miss Lieurena Pearce, as executrices. He leaves the farm to his sons, Salem Pearce and Frank Pearce. The rest of the property goes to the three daughters, including the executrices and Miss Laura Pearce.

Mrs. Robert Barr and daughter, Blanche, of Des Moines, Ia., who have been visiting at the home of Mrs. Barr's brother, Judge C. A. Anthony, and family, left this morning for their home.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Season Fair Tickets

ON SALE AT FAIR HEADQUARTERS

Six Big Days **These Tickets** Six Big Nights

Are Good for any one member of family day or night show. For instance, daughter in forenoon, wife in afternoon, father at night. Good to all parts of the grounds, grandstand and centerfield. I have been asked why we have raised the price on season tickets. Last year the reduction was one-fifth, this year one-third, and on autos, almost one-half. I only ordered 1000 of these tickets. Take advantage while they last.

Season Tickets $3.00

Auto Season Tickets $2.50

REGULAR ADMISSION:

Adults, Day Show, 50c

Adults, Night Show, 25c

Children, 7 to 12 years old, 25c

To all parts of the grounds, grandstand and centerfield FREE. No Extra Charge Every Time You Turn Around.

PHONES—OFFICE 42. HOME 688

Miss Hall Hostess.

Miss Mollie D. Hall entertained a party of friends last night at the Empire theater to witness the production of "The Naked Truth," followed by a luncheon at Reuillard's. The guests were Miss Anna Finkbeiner, Miss Ollie Leeper, Miss Louise Finkbeiner and Miss Nelle Talbot.

Spend Vacation in Chicago.

Prof. and Mrs. George Harris Colbert and sons, Philip and Ned, will leave Thursday for Chicago, where they will spend a month visiting with the eldest son, Herschel M. Colbert, who is in the employ of the city press bureau of Chicago. While there the Colberts will occupy the apartments of Mr. and Mrs. George Richard Eaton, formerly of this city, who are leaving Chicago for a several weeks vacation, which will include a visit in this city.

Mrs. Shields Given Surprise.

Mrs. Emma Shields, living near Burlington Junction, was given a surprise party Sunday by the members of the Mount Pleasant Sunday school. The crowd brought everything to serve a good dinner, which was enjoyed at noon. Those present were Mr. and Mrs. George Colter, Mr. and Mrs. Pearl Pence, Mr. and Mrs. Ellett Trueblood, Mr. and Mrs. James Hornbuckle, Mr. and Mrs. Tillie Hornbuckle, Mr. and Mrs. Ed Hornbuckle, Mr. and Mrs. Newton LeGrande, Misses Eva Pence, Ora LeGrande, Letha and Velma Colter, Iva Farren, Cleta Trueblood, Gladys and Ruth Hornbuckle, Messrs. Floyd and Orval Colter, Enos Pence, Alvin and Harold Trueblood, and Mrs. Shields and family.

Society Elects Officers.

The annual business meeting of the Women's Missionary society of the First Baptist church was held Thursday afternoon at the church and the officers for the coming year elected. The reports were submitted and the various details of closing up the records for the year transacted. At the conclusion of the business a picnic luncheon was enjoyed on the lawn. The officers chosen were Mrs. Alex Fraser, re-elected president; Mrs. W. A. Burris, first vice president; Mrs. Clark Andrews, second vice president; Mrs. L. P. James, third vice president; Mrs. W. M. Westbrook, secretary; Mrs. G. W. Hempstead, treasurer; Mrs. William Everhart, collector; Mrs. Lewis M. Hale, organist; Mrs. H. L. Raines, chorister; Mrs. W. A. Bailey, flower committee; Mrs. Omer Catterson, librarian.

Gives Garden Bridge.

One of the most charming affairs of the week and a pretty compliment to a number of out-of-town friends was a garden bridge given this afternoon by Mrs. L. E. Forsyth at the Forsyth bungalow, in West Terrace Place. The afternoon was planned for the pleasure of Mrs. Forsyth's sister, Mrs. Frank G. Shoemaker, Jr., of Oklahoma City, Okla.; Mrs. Paul Ream of Kansas City, Mrs. Harold Ford of Chicago, Miss Margaret Beattie of Newport, Ark., and Miss Mary Shaaber of Reading, Pa., all of whom are visiting in the city. The game tables were placed on the vine covered porch, which had been further beautified with sunflowers. After the games, luncheon was served in the garden, which is just now in full bloom of old fashioned flowers. Mrs. Forsyth was assisted in entertaining by Mrs. E. L. Townsend, Mrs. W. A. Rickenbrode and Miss May Orear. The guests were limited to the members of the Monday Afternoon and Tuesday Afternoon Auction Bridge clubs.

For Miss Brown.

Miss Dorothy Pierce gave a dinner party last night at the Pierce home at which she entertained Miss Nora Brown of Kansas City, Miss Fay Herndon and Jack Holt. The dinner was arranged for the pleasure of Miss Brown, who is visiting Maryville friends.

Miss Swinford Gives Dinner.

Miss Irene Swinford was the hostess of an attractive dinner party given last night at the Swinford home, on South Main street, when she entertained as a courtesy to Miss Hazel Lake of Des Moines, Ia., who is visiting her mother, Mrs. Alice Lake. The table was adorned with pink sweet peas and clusters of garden flowers were used in the rooms. Plates were laid for Miss Lake, Mrs. Alice Lake, Mrs. Mary Albright and Miss Dolly Albright of Logan, Kan.; Mr. and Mrs. G. W. Swinford, Miss Frankie Hallowell, Miss Elizabeth Heffern, Miss Lida Onstott, John H. Wise, W. H. Swinford, and the hostess.

Party On Western Tour.

Mr. C. Edwin Wells and his sisters, the Misses Mabel and Edith Wells of this city, accompanied by Dr. and Mrs. J. A. Wells of Shawnee, Okla.; and Miss Clara Cramer of Bartlesville, Okla.; will start tomorrow on a western tour. They will take the northern route of travel, stopping at Portland and Seattle, then go to San Francisco, Cal., and home by the way of the Grand Canon in Arizona and Lovelock, Nev., where Miss Edith Wells will leave the party to take up her work in the public schools, where she taught last year. The others will return home in the early part of September.

Mrs. Roberts Hostess.

The August meeting of the C. W. B. M. was held Thursday afternoon at the home of Mrs. C. B. Roberts, on East Third street. Mrs. James D. Frank acted as leader, and special readings were given by Mrs. Robert Lyle, Mrs. C. B. Roberts, Mrs. U. S. Wright and Mrs. L. S. Yeo. Miss Floy Lyle, who taught last year in the schools of Porto Rico, and is now spending a vacation with her parents, Mr. and Mrs. Robert Lyle, gave a very interesting talk on her work in the island. Musical numbers were given by Don Roberts and Ernest Moore, and the afternoon concluded with a social hour and luncheon served by Mrs. Roberts, Mrs. Roland Thomas, Mrs. J. H. Vanhorn and Mrs. George Fisher.

Farewell Gathering.

A farewell surprise party was given Wednesday night at the home of Mr. and Mrs. Roy Parent, living in the Harmony neighborhood, in honor of their son-in-law and daughter, Mr. and Mrs. Guilford McKee, who will leave soon for Montana to make their home. The time was spent with lawn games and a delicious luncheon was enjoyed. Those present were Mr. and Mrs. Clyde Patterson, Rev. and Mrs. C. R. Green, Mr. and Mrs. Elmer Porter, Mr. and Mrs. James Lewis, Mr. and Mrs. Bert McKee, Mr. and Mrs. Joe Trullinger, Mr. and Mrs. A. Lawson, Mr. and Mrs. Lee Devore, Mr. and Mrs. Jose Kessler, Mr. and Mrs. R. W. Parent, Mrs. Mary McKee, Mr. and Mrs. Guilford McKee, Misses Lula, Pearl and Florence Johnson, Florence and Mildred Trullinger, Stella, Gladys, Leatha and Lucile Lawson, Pearl and Marie Lewis, Charlotte and Ida Green, Bessie, Doris and Ogle McKee, Mary Kessler, Effie Willis, Hattie Crigger, Edna Furlong, Eva Griffey, Ruth Singery, Gladys, Elsie, Hazel, Irma and Dora May Parent, Messrs. Ralph, Emmett and George Lewis, Ralph, Carl, Virgil, Paul and Wayne Kessler, Everett, Florian, Vilas, Carl and Oral Porter, Leland McKee, Jack Eisman, Cecil, Glen and Pearl Eisman, Charles Wilson, Walter Volke, Charles and Alex Crigger, Ira and Clifton McKee, Fay, Willis and Emmett Parent.

Production of Bauxite and Aluminum.

The production of bauxite and the consumption of aluminum in the United States in 1914 were the largest ever recorded. The report prepared by W. C. Phalen, of the United States Geological Survey, shows an output of 219,318 long tons of bauxite, valued at $1,069,194, in 1914, against 210,241 long tons, valued at $997,698, in 1913. The States which produced bauxite in 1914 were Alabama, Arkansas, Georgia, and Tennessee. Arkansas produced more than 80 per cent of the output.

Children in the public schools of Chattanooga, Tenn., draw maps of South America on which they indicate by marks all places where goods manufactured in their city are sold.

The cat, sheep and turkey are exceptions to the rule that animal species increase in size after domestication. An average wild sheep weighs 100 pounds more than his farmyard cousin.

BIG LEGAL FIGHT ON FISHING BOAT

Lansing and "Ham" Lewis Lawyers In Old Suit.

WAS NAMED AFTER SENATOR

It Turned Out to Be Poacher, Russia Captured It, and Owners Became Indignant—Now, After Twenty-three Years, Lansing Must Adjust Case and Senator Pass on His Action.

Washington.—Senator James Hamilton Lewis of Illinois has a fishing smack named for him, and that fishing smack is at present the cause of international complications between this country and Russia. Furthermore, Secretary of State Robert Lansing has much more to do with the unraveling of that fishing smack disturbance than the ordinary reader would suspect, and the whole story is being told in Washington corridors these days.

The story goes that in the years of 1894, 1895 and 1896 "Jim Ham" Lewis

Photos by American Press Association.

ROBERT LANSING (TOP) AND JAMES HAMILTON LEWIS.

was a struggling lawyer in the city of Seattle, Wash. He had gone there from the south to make his fame and fortune. About the same time a little fleet of fishing smacks began to get in trouble in the north Pacific waters. The boats plied up and down the British and Russian coasts along Bering strait, and they poached in Russian and British territory and were straightway seized by naval vessels of those countries.

The owners retained Lewis as attorney, and he fought all through the various tribunals all the way to the supreme court of the United States, where a victory was gained in a test case for the owners of the ship Coquitlam, the lower courts all being reversed. Then the British owners of interest in these vessels made claim for all their expenses and damages before the British-American claims commission, which was established to hear controversies between the two countries.

Robert Lansing, then almost unknown to fame, appeared as counsel with Lewis. Lansing represented the larger interest and Lewis the smaller. They were successful, and as the result of the victory achieved the clients of Lewis changed the name of one of the smacks to the James Hamilton Lewis, out of compliment to their counsel.

Then the James Hamilton Lewis began to be one of the liveliest little seal poachers in the Pacific and was consequently picked up by the Russian government. The owners made an indignant protest, and the case has been pending between the United States and Russia ever since.

Now the secretary of state, who must adjust the treaty of this subject with Russia, is Robert Lansing, who was chief counsel for the United States end of the controversy before the claims tribunal.

James Hamilton Lewis is one of the United States senators who must pass on the question of whether or not Lansing's work shall be ratified.

The cases started twenty-three years ago. The two men involved have reached eminent places in the world, while their client's case is still in court, and the controversies between Russia, England and the United States on the general fishing and sealing question are still unsettled and are matters of irritation.

Bobbies Get Respirators.

London.—All police sections in London have been equipped with respirators, which will be served out to patrolmen and special constables as a protection against gas bombs in case of a Zeppelin raid on the metropolis.

TALK ABOUT COOL SUMMER, LOOK AT THIS ABOUT 1816

The temperature so far this summer has been extremely low, we will all admit that, so will the readings of the thermometer show it, but remember that 1816 was much colder. If you do not remember that, here are a few facts gleaned from a diary kept in that year, as submitted by H. H. Hankins, 322 North Mulberry street.

The year 1816 was known throughout the United States and Europe as the coldest ever experienced by any person then living. There are persons in Northern New York who have been in the habit of keeping diaries for years, and it is from the pages of an old diary begun in 1810 and kept up unbroken until 1840 that the following information regarding this year with out a summer has been taken:

January was so mild that most people allowed their fires to go out and did not burn wood except for cooking. There were a few cool days but they were few. Most of the time the air was warm and springlike. February was not cold. Some days were colder than in January, but the weather was the same. March, from the 1st to the 6th was inclined to be windy. It came in like a small lion and went out like a very innocent sheep.

April came in warm but as the days grew longer the air, became colder, and by the first of May there was a temperature like that of winter, with plenty of snow and ice. In May the young buds were frozen dead, ice formed half an inch thick on ponds and rivers, corn was killed and the cornfields were planted again and again, until it became too late to raise a crop. By the last of May in this climate the trees are usually in leaf and birds and flowers are always plentiful. When the last of May arrived in 1816, everything had been killed by the cold.

June was the coldest month of roses ever experienced in this latitude. Frost and ice were as common as butterflies usually are. Almost every green thing was destroyed. Snow fell 10 inches deep in Vermont. There was a 7-inch rain fall in the interior of New York State and the same in Massachusetts. There were only a few moderately warm days. Everybody looked, longed and waited for warm weather but warm weather did not come.

It was also dry; very little rain fell. All summer long the wind blew steadily from the north in blasts, laden with snow and ice. Mothers knit socks of double thickness for their children and made thick mittens. Planting and shivering were done together, and the farmers who worked out their taxes on the country roads wore overcoats and mittens.

On June 17 there was a heavy fall of snow. A Vermont farmer sent a flock of sheep to pasture on June 16. The morning of the 17th dawned with the thermometer below freezing point. About 9 o'clock in the morning the owner of the sheep started to look for his flock. Before leaving home he turned to his wife and said jokingly:

"Better start the neighbors soon, it's the middle of June and I may get lost in the snow."

An hour after he had left home a terrible snowstorm came up. The snow fell thick and fast and, as there was so much wind, the fleecy masses piled in great drifts along the windward side of the fences and out buildings. Night came and the farmer had not been heard of.

His wife became frightened and alarmed the neighborhood. All the neighbors joined in the searching party. On the third day they found him. He was lying in a hollow on the side hill with feet frozen; he was half covered with snow, but alive. Most of the sheep were lost.

A farmer near Tewksbury, Vt., owned a large corn field of corn. He built fires. Nearly every night he and his men took turns in keeping up the fire and watching that the corn did not freeze. The farmer was rewarded for his tireless labors by having the only crop in the region.

July came in with ice and snow. On the fourth of July ice as thick as window glass formed throughout New York. In some parts of state of Pennsylvania, Indian corn, which in some parts of the east had struggled through May and June, gave up, froze and died.

To the surprise of everybody, August proved the worst month of all. Almost every green thing in this country and Europe was blasted with frost Snow fell at Barnet, thirty miles from London, England, on August 30.

Newspapers received from England stated that 1816 would be remembered by the existing generation as the year in which there was no summer. Very little corn ripened in New England. There was great privation, and thousands of persons would have perished in this country had it not been for the abundance of fish and wild game.

FARMER SHOULD USE CHECKS.

Government Advises Accounting and Notations of all receipts and Expenditures.

Farmers who do most of their business by check can, with little effort, keep a very satisfactory account of the total farm receipts and expenses says the government agricultural department. Two things are essential for the success of this method:

First. All money received from any source, whether in cash or by check, should be deposited in the bank. By doing this the record of deposits will give the entire farm income. Most important of all, it insures against any moneys being spent without a check or stub to show for it.

Second. When drawing checks, care should be used to state for what purpose drawn. In this way the check stub will give an itemized account of the farm expenditures.

Under this system, checks for money for personal use are drawn in the same way as for any other purpose. At times the purchase of minor articles for farm use will require cash when the amount is so small that it is not desirable to use a check; therefore, to have an exact record a memorandum of the farm items which are paid out of the money checked out for personal use is needed. That is, these items should be charged to the farm, but they are really paid out of the check book to the personal account.

A memorandum of produce exchanged for groceries is also necessary, as there is no cash transaction in such cases.

In using this system it is better to have a large book of checks, which, if the farm business is of moderate size, the banker will gladly furnish with the checks numbered and the owner's name printed on them. A check book of this kind will generally last for a year, thus the advantages of having all the accounts in one book. This check-book system as an aid to keeping financial accounts on the farm is very simple and will prove valuable to a large number of men whose business is adapted to it.

Boys of Williamsport, Pa., are to have a college opportunity that boys in other cities may well envy. Through the will of the late A. D. Hermance, funds are eventually to be made available sufficient to give every deserving graduate of the high school $500 a year for four years while attending Cornell university.

ATCHISON MAY VOTE BONDS.

Petitions Signed by 374 voters Ask for Special Road Improvement Fund.

Petitions signed by 374 voters of various parts of Atchison county have been presented to the county court, in session at Rock Port this week, requesting that a special election be called at once to vote on a proposition to issue $250,000 in special bonds to improve the roads and bridges of all parts of that county.

The election has been called for this month. It is believed the proposition will carry.

ELECT DRAINAGE SUPERVISORS.

Nodaway River Improvement is Delayed by Floods—Suspend Operations.

The annual election of supervisors of the Nodaway drainage district No. 1 was recently held on the J. W. Patterson place. Those present were only supervisors.

W. N. Hodgin was elected to fill a five-year term, and Lum Kunkel was chosen to fill the unexpired term of W. C. Andes. The books of the district were audited by a committee, and Engineer Morris filed his annual report.

The dredge boat has been compelled to suspend operations on account of the flood conditions.—Holt County Sentinel.

To Show Eastland Disaster.

A one-reel motion picture of the Eastland disaster at Chicago recently, in which about 1,000 passengers drowned, will be shown tonight at the Fern theater. The pictures were taken by the Chicago Tribune, the first fifteen minutes after the accident occurred.

The net proceeds from the portrayal of the disaster will go towards a fund to help the widows and orphans resulting from the disaster.

Skidmore to Play Maitland.

The Skidmore base ball team is scheduled to play the Maitland team at Skidmore tomorrow afternoon. A game between Skidmore and Arkoe is set for Sunday, August 22.

SAY APPLE CROP IS SHORT

Predict Half Yield in Northwest Missouri Though Quality Will Probably Be Good.

The apple crop of this section is not up to the average in quantity according to L. V. Crandall, county farm agent of Buchanan county. "Throughout this county it will run from 50 to 65 per cent of average, and in some orchards as low as 35 per cent. I believe the quality, however, is about up to standard.

"As to the duchess, we have comparatively few trees in this section, but they are yielding well, and the quality is good. The wealthies are loaded. Some Jonathan orchards are up to average, and others fall as low as 35 per cent of average. Ben Davis trees are not yielding as well as usual; this is true also of the Ganos, while the Winesaps will be about a half crop.

Heavy rains have interfered with spraying because the ground was so wet that it was often impossible to drive the apparatus through the orchards. Growers who have succeeded in spraying, however, have a good crop, everything considered.

The apple crop throughout the country in general will be only about 50 per cent of last year's. The total yield is estimated at 30,000,000 barrels.

There is a shortage in almost every section of the country, being in the nature of a reaction from last year's phenomenal yield. This does not mean however, that the growers will lose money. It often happens that when the yield is short the price makes up the difference.

Elmo Now Has Orchestra.

Elmo has an orchestra now. The members are Ray Barker, cornet; Ercille Kinman, melophone; Leland Bushey, trombone; Dale Snodderly and Clarence Spangler, violins; Mrs. Tirzah Meek, pianist, and Lewis Maloy, trap drums.

Harlan Hallowell Here.

Harlan Hallowell of St. Paul, Minn., arrived in the city yesterday to visit his mother, Mrs. T. C. Hallowell.

ANNOUNCEMENT EXTRAORDINARY!!

Hon. W. J. Bryan

has been secured for a date here and will speak at the

MARYVILLE CHAUTAUQUA,

THURSDAY, AUGUST 12, AT 7:30 P. M.

America's First Orator with his latest and greatest address. Hear him.

LOOK OUT, FRIDAY, 13TH!

Predict Astronomical Phenomena for Month of August, Beginning Next Week.

St. Louis astronomers predict some dire meteorological happenings this month.

Brother Hubert, professor of astronomy at Christian Brothers college, issued a bulletin warning the population to "look out for squalls" on Friday, August 13. Father Martin S. Brennan, professor of astronomy at Kenrick seminary, declared there will be a shower of meteors Monday and Tuesday nights.

Brother Hubert attributes the present unseasonable weather to sun spots and predicts that it will last two weeks longer.

Virginia Has Good Coal Year.

The production of coal in Virginia in 1914 was 7,959,535 short tons, valued at $8,032,448. This was 868,533 tons less than in 1913, with a decline in value of $920,205, yet the output was greater than in any year previous to 1913, according to figures compiled by C. E. Lesher, in cooperation with the Virginia Geological Survey, and just made public by the United States Geological Survey. The decrease in quantity was 9.8 per cent and in value 10.3 per cent.

LINING UP THE BALKANS

Entente Is Trying to Win Over Bulgaria, Greece and Roumania.

Nish, Servia, Aug. 7.—Another step in the effort for a Balkan agreement so that Bulgaria Roumania and Greece may be mustered on the side of the entente powers was taken here by the ministers of Russia, Great Britain, France and Italy, who made collective representations to Nikola Pachitch, the Servian premier.

The minister's representations were of the friendliest character and were made "in the hope of avoiding friction between the Balkan states and in establishing an entente between them, thus bringing nearer the final success of the allies in the war."

POLAND AS NATION

Kaiser to Preside Over Council to Consider Making It Semi-Free State.

Rotterdam, Aug. 7.—Emperor William, the Courant says, will return to Berlin tomorrow to preside over an important cabinet conference at which the heads of all German states and the Austrian archdukes will be present.

Proposals will be considered for issuing a proclamation declaring Poland a semi-autonomous state and placing it, together with Galicia, under the joint rule of Germans, Austrians and Poles. These plans will be submitted to the reichstag, Aug. 17, the Courant asserts.

Milwaukee Eagles Win First Prize.

Spokane, Wash., Aug. 7.—The Milwaukee aerie of Eagles won the first prize in the $3,000 contest in the exemplification of the ritual at the grand aerie of the Fraternal Order of Eagles here. In the military drill judged by United States army officers the Helena team won first prize of $100 and the Milwaukee team second of $50.

SIR CECIL SPRING-RICE.

British Ambassador Who Presents London's Notes to Washington.

Photo by American Press Association.

GENERAL SCOTT ON WAY TO EL PASO

Will Confer With Villa and Other Factional Leaders.

Washington, Aug. 7.—Major General Hugh L. Scott, chief of staff of the United States army, accompanied by Lieutenant Colonel Robert E. Michie, a member of the general staff, left Washington for El Paso, Tex., to confer with General Francisco Villa and other revolutionary leaders there regarding the Mexican situation.

The occupation of the office of the port and the national palace, gave the Americans the last positions held by the Haitiens. The populace has been thrown into consternation by the operations of the Americans.

The president of the senate in the name of the nation cabled Solon Menos, Haitien minister to the United States, a new protest against the occupation of Haitien territory by American naval forces.

CAR BREAKS DOWN IN DESERT

One of Its Three Occupants Dies of Thirst.

Los Angeles, Aug. 7.—Failure to think of putting water in an automobile radiator brought death to one man and frightful tortures to two others, who arrived here from the desert and told of their sufferings.

The trio, James S. Roche and John H. Welsh, attorneys, and James G. Clark, a real estate dealer, left here Sunday in an automobile for El Centro in the Imperial valley.

Monday morning the car stopped in the sand. The passengers found the radiator empty and had no water. Roche and Welsh started after a mirage, which they believed was the Salton sea. Clark waited a day and then, believing them dead, made his way to Mineral Springs, where he was resuscitated and organized a rescue party. They found Roche unconscious and Welsh dead. Roche said they drank lubricating oil.

SPAIN STRENGTHENING ARMY

Alfonso Preparing to Defend Domain After Present War Ends.

Madrid, Aug. 7.—The Spanish government recently has been active in the preparation of military and naval armament. Artillery, small arms and projectile factories are working night and day.

Military and naval commissions have left for the United States and Italy for the purpose of acquiring arms and ammunition, as well as the machinery for their manufacture. There is talk also of the acquisition by Spain of a number of submarines and of large quantities of mines for coast defense purposes.

It is said that the motive behind these warlike preparations is by no means to enter the present European conflict on either side, but to strengthen Spain and to prepare it for any event which may follow the present war.

MAKE HOLIDAY OF HANGING OF NEGROES

Starkville, Miss., Aug. 7.—Peter Bolen and Jim Seales, negroes convicted of killing another negro, were hanged in public here, the gallows being built in a natural amphitheater which afforded the crowd of several thousand, including many women, an unobstructed view of the hanging. Soft drinks and candy venders sold their wares among the crowd while it waited for the executions.

Trilby, Fla., Aug. 7.—A mob attacked the jail at Dade City, overpowered the jailer and lynched Will Leach, a negro charged with attacking a white girl.

MARINES TAKE HAITIEN PALACE

Seize Office of Port, National Building and Gunboat.

ONE OF NATIVES IS KILLED.

Yankee Sailors Open Fire and an Islander Loses His Life In Fray. American Naval Forces Now In Charge—More Marins Will Be Sent.

Port au Prince, Aug. 7—American naval forces took possession of the office of the port, the national palace and the Haitien gunboat Pacifique.

During the movement to take the office of the port the Americans opened fire on the Haitiens and one Haitien was killed.

It was reported that the general form of the final appeal to the factional leaders had been agreed upon by the conferees and adjournment taken while Mr. Lansing laid it before the president. The secretary was said to be at work on a draft of the appeal in consultation with Secretary Lane, who has kept in close touch with the Mexican situation. The appeal will be addressed to the Mexican people. Copies will be presented to the various Mexican leaders, to the governors of the Mexican states without regard to the faction they represent, and also be circulated throughout Mexico by American and Latin-American consular officers bearing the ratification of all South and Central American governments.

More Marines Ordered to Haiti.

Philadelphia, Aug. 7—It was reported here that a regiment of marines has been ordered to Haiti. It was said the marines will leave here Monday on the cruiser Tennessee.

DUN'S REVIEW OF TRADE

Vagaries of Weather Halt Commercial Progress.

New York, Aug. 7—Dun's Review says:

Commercial progress would be more uniform were it not for the vagaries of the weather, especially in the east. Apart from these handicaps develop ments continued mainly on the constructive side. Rarely have fundamental conditions been as sound as at present, and knowledge of this fact leads to the conviction that nothing is likely to permanently check the revival of general business activity. New measures of trade improvement and expansion are afforded by the monthly statistics and notable among these are the failure figures, which, instead of showing the customary July increase in number, disclose fewer losses than in June. Turning to the iron and steel situation it is said that the output of pig iron has risen to the highest point in fully two years. So urgent have the demands for steel products become that the mills in some instances are behind in deliveries and quotations are steadily advancing. Progress in manufacturing elsewhere has not set the same pace; most shoe factories are running close to capacity and there has been a noticeable revival of operations in the woolen industry, but the largest plants turning out blue denims have shut down for an indefinite period because of the shortage of dyestuffs. Labor conditions are improved by the adjustment of differences in the clothing trade, although troubles continue in some other lines.

Train Speeds With Dead Man as Pilot.

Columbus, O., Aug. 7.—When a Big Four passenger train speeded through Georgesville, a small station near here, without stopping, as usual, the fireman pulled the coat of Engineer William Quinlan to attract his attention and found that the engineer was dead.

GRAIN AND PROVISIONS

Closing Quotations on the Chicago Board of Trade.

McLoughlin Winner Over Williams.

Boston, Aug. 7.—Maurice E. McLoughlin of San Francisco defeated R. Norris Williams of this city, the national lawn tennis champion, in the challenge match of the Longwood singles, the oldest tennis tournament under club auspices in the United Sates. The score was 6-3, 6-3, 2-6, 6-2.

Steamer Costello Sunk by Submarine.

London, Aug. 7.—The British steamship Costello, of 891 tons net, has been sunk. The crew, with the exception of one man, who was drowned, has been saved.

THE LITTLE FOLKS AS WELL AS THE BIG FOLKS FIND THE MISSOURI STATE FAIR THEIR FAIR.

Little folks who are so fortunate as to be privileged to attend the Missouri State Fair at Sedalia find its crowds and its action and life great sights, but when they tire of the crowds and the big sights of the fair and seek childish recreation in play and rest it is to find that their every desire in this direction has been anticipated.

Not only is there a children's hospital and nursery in connection with the Woman's building, but there has been erected at the rear of the Woman's building, in a permanent and pleasant enclosure, a children's playground where all the most modern equipment is arranged for their amusement and recreation. Here mothers may "check" their little ones safe and secure in the assurance that they will not only be well and safely cared for, but that they are enjoying the most healthful exercise under the most pleasant environment. Children who are in Sedalia and the Missouri State Fair grounds from September 25 to October 2 will find the model playgrounds a delight and joy.

GOOD TEETH; GOOD HEALTH

Investigations Show That Much Depends on Molars—Discover New Treatment of Pyorrhea.

According to the United States public health service there will be a falling off in the sale of store teeth in the future, and plates and toothless gums will be seen less frequently than formerly. This is due to the epoch making discovery of the cause and method of treating what is known to the scientist as pyorrhea dentalis and alveolaris and to the layman as Rigg's disease.

This is a suppuration around the roots of the teeth and causes an inflammation which produces loosening and loss of the teeth. At one time or another practically everybody has Rigg's disease. It is caused by a minute single celled animal called the endamoeba buccalis. This malevolent parasite does its work in combination with the pus-producing bacteria or germs. The skilled teamwork between these two destroys the delicate membrane which surrounds the roots of the teeth and causes them to fall out.

The necessity of good teeth in order to have good health has been recognized a long time, but the scientists of our country have only recently worked out the relationship between decay of the teeth and Rigg's disease on the one hand, and rheumatism on the other.

So firmly have these facts been proven that the modern up-to-date physician begins the treatment of such diseases by an inquiry into the condition of the teeth and their sockets. If these are found to be diseased, the condition is cured before the treatment goes further. The discovery of the cause of Rigg's disease is, therefore, of the very greatest importance.

Just as soon as the cause of Rigg's disease was found out, the search for the cure began in earnest. It had been previously discovered that the use of ipecac would cure the diseases which are causesd by infection of the intestine with endamoebae. From this it was duced that a similar treatment would cause the destruction of endamoebae in the mouth.

This was found to be the case, and emetin, the form of the drug used, is now administered by physicians for the cure and prevention of the disease. It sometimes takes a considerable time to get rid of all of the malignant germs in this way but the results which have been obtained have been remarkably good. The treatment is both local and general.

In the matter of preventing mouth disease, it is important that the mouth be cleaned several times a day, and that a dentist be visited frequently to remove tartar and the yellowish matter which accumulates along the inner edges of the teeth and btween the teeth.

This is particularly important in the case of children, because it has been found that many a child is apparently dull who is in reality suffering from a chronic poisoning produced by a mouth full of dcaying teeth.

The number of sufferers from Rigg's disease in the United States is very large and the United States Public Health Service is daily receiving inquiries as to the method of curing and preventing the disease.

Production of Portland Cement.

The total production of Portland cement in the United States in 1914, according to Ernest F. Burchard, of the United States Geological Survey, was 88,230,170 barrels, valued at $81,789,368; the production for 1913 was 92,697,131 barrels, valued at $92,557,617. The output for 1914 represents a decrease in quantity of 3,866,961 barrels, and a decrease in value of $10,768,249. The value assigned to the production is computed on the basis of 92.7 cents a barrel, or the average value of the Portland cement shipped in 1914.

Guest at Burris Home.

Mrs. Susan Case of Gordon, Neb., is visiting in the city, the guest of her nephew, W. A. Burris, and family.

MURDOCK SPEAKS AT CHAUTAUQUA

ACTIVE KANSAN WILL DELIVER "RED HOT" MESSAGE TOMORROW.

CHICAGO JURIST AND 'FUNNY MAN' TODAY

Judge Marcus A. Kavanagh Speaks This Afternoon, Beauchamp Tonight—Ticket Prices Up.

Saturday, August 7.

7:30 p. m.—Music by The University Girls.

8:15 p. m.—Fun and Philosophy, "Take the Sunny Side," by Lou J. Beauchamp.

Sunday, August 8.

2:30 p. m.—Male Quartet Melody by The Orphean Musical Club.

3:00 p. m.—Address, "National Bad Habits," by Congressman Victor Murdock of Kansas.

4:15 p. m.—Vesper service, address by W. B. Dickinson.

7:30 p. m.—Musical and Art program by The Orphean Musical Club.

8:15 p. m.—Interpretative reading, "The Melting Pot," by Arthur Kachel.

Monday, August 9.

9:40 a. m.—The Junior Chautauqua. A Trip to Europe.

10:30 a. m.—Special address, "Solving the Rural Church Problems," by H. R. McKeen.

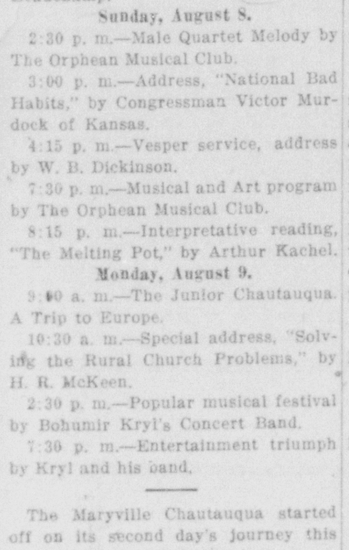
2:30 p. m.—Popular musical festival by Bohumir Kryl's Concert Band.

7:30 p. m.—Entertainment triumph by Kryl and his band.

The Maryville Chautauqua started off on its second day's journey this morning with a full house, just as yesterday, nearly every seat being filled. The price for season tickets was raised from $1.50 to $2 at noon today, as scheduled. About 1,000 were sold, making an aggregate total of $1,500, or enough to cover the entire guarantee of the twenty-five business men who "backed" the proposition.

The first Junior Chautauqua for children was held this morning preceding the address by Yutaka Minakuchi, a Japanese scholar and orator, who spoke on "The Men and Religion Forward Movement."

This afternoon's program was started off at 2:30 o'clock with a half hour's treat by the University Girls, in both instrumental and vocal music. Judge Marcus A. Kavanagh, judge of the superior court of Cook county, Illinois, followed with an address on "Traitors to Justice," in which he flayed the men "higher up," and urged all citizens to stand by the laws of the country and state, even though some appear too harsh or arbitrary.



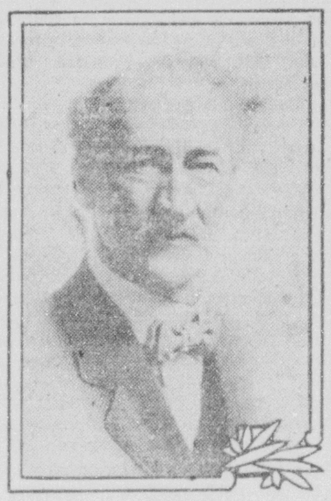
VICTOR MURDOCK.

Tomorrow a "Big" Day.

Lou J. Beauchamp, "the funny man" of the Chautauqua, will entertain the Chautauqua audience tonight with an address on "Take the Funny Side." The University Girls will precede him with an hour's musical entertainment.

Tomorrow will be a "full' day at the Chautauqua grounds. There will be no regular morning program, but in the afternoon Victor Murdock, former congressman of Kansas, a newspaper publisher, and one of the leaders in the "Bull Moose" party, will take the platform. His address is entitled "National Bad Habits," and is slated to be one of the best numbers of the entire week's program.

Dr. W. B. Dickinson will follow him with a vesper service address, while the Orphean Musical club will give a musical and art program, and Arthur Kachel will give an interpretative reading of "The Melting Pot" at night.



LOU J. BEAUCHAMP.

Monday Kryl's Concert band will be the big attraction, both afternoon and night.

Opening Number Was Good.

The opening number of the Chautauqua yesterday afternoon was unusually good. The Old Home Singers drew aside the curtains with a half-hour's prelude of musical entertainment. The singers consist of Miss Helen Smith, soprano; Miss Pearl Maupin, contralto; C. M. Williams, tenor; Harold King, bass, and Miss Clara Crangle, accompanist. Their program consisted of:

"Maryland, My Maryland," quartet.

"Whispering Hope," Miss Smith and Miss Maupin.

"Old Black Joe," quartet.

"Grey Home in West," Miss Smith.

"Low-Backed Car," Mr. Williams and Mr. King.

"Come Back to Erin," quartet.

"In 1822," Miss Maupin.

Quartet from "Rigoletto."

Kansan Urges Temperance.

The address by Judge Schoonover of Kansas yesterday afternoon was a strong, practical message from a man who has been educated in the school of hard knocks; from a man who has not been a model citizen all his life, but who is redeeming the part of his past which he regrets by helping others.

Mr. Schoonover is a judge in the court of appeals of Kansas, was for eight years a county prosecutor, and knows much of human nature and human frailties. He is a very strong advocate of local, state and national prohibition. To this position he has been converted by observation of the benefits derived from prohibition in his own state.

He admits that he voted against prohibition in Kansas when that issue was up thirty-five years ago. In his opening remarks, the judge stated that he was a native of Missouri, and paid a very high compliment to our state. He said, however, that Kansas has more wealth per capita than any other state in the Union.

It was a good, wholesome sermon from a practical business man, and delivered in a forceful, convincing manner. His address was especially directed to the young man.

12 TUTORS SEEK CERTIFICATES.

W. M. Oakerson Examines Those Desiring State "Passes"—Some Live in County.

An examination of twelve teachers of northwest Missouri, who seek state teachers' certificates, was held yesterday and today at the Normal school, under the direction of W. M. Oakerson, chief clerk in the state department of public instruction.

Mr. Oakerson will remain in Maryville over Sunday to visit friends and attend the Chautauqua.

The quizzes are for those seeking life certificates and also for those merely writing for five-year certificates. The following persons are taking the quizzes:

D. D. Hooper, Barnard; Birdie Ray, St. Joseph; Frank Wesley Baker, Graham; Opal Key, Maryville; Grace McFarling, Rock Port; R. O. Evans, Cainsville; Ruth Linville, Dawn; Lucy Wanamaker, Chillicothe; Ruby Hays Ruddell, Maryville; Bert E. Morgan, Jamison; W. I. Cox, Mercer, and Mrs. Ed Malotte, Edgerton. Mr. Baker and Miss Key have completed the work for five-year state certificates.

Market Live Stock.

Collins Bros., W. H. Anderson, L. D. Hill, Ed Atkins, Horton & Douglass, T. Kenon, W. F. Kennedy and J. W. Millbank were patrons to the St. Joseph market yesterday from Nodaway county.

Returns to St. Joseph.

Miss Myrtle Petree of St. Joseph, who has been attending the summer term of the Normal, returned to her home yesterday.

SLAVS FALL BACK

RUSSIANS LEAVE ALL VISTULA LINE EXCEPT NOVOGEORGIEVSK.

IVANGOROD IS TAKEN

Teutons Plan to Advance Into Heart of Empire, Belief—Von Buelow Menaces Enemy From North.

London, Aug. 7.—With the exception of the great entrenched camp of Novogeorgievsk, the Russians have evacuated the whole line of the Vistula river, Ivangorod, the southern fortress, having fallen into the hands of the Austro-German armies. The Russians are now making their way eastward to the Brest-Litovsk line.

The decision of the general staff to leave the garrison in Novogeorgievsk is announced in Petrograd dispatches. The object is to deprive the Germans of the use of the railway communications and of the Vistula river for bringing up supplies for their armies.

Novogeorgievsk is situated at the junction of the Vistula, Narew and Wkra rivers to the northwest of Warsaw. It has two powerful bridgeheads eight citadels and seventy-four redoubts containing eleven and twelve inch batteries.

Could Hold Out Months.

It is calculated by military observers here that an army corps can hold out there for many months as the camp is protected by massive earth works.

The laying of siege to Novogeorievsk may prove one of the most interesting operations of the war, as it doubtless will show whether earthworks are less susceptible to the fire of high explosives than are cupola forts.

Of the retiring Russian armies the official reports say nothing. The Russians, however, destroyed bridges over the Vistula and took other means to place obstacles in the path of their pursuers, while others of their forces continue to offer stubborn resistance to the Germans and Austrians south and north who are trying to forge a ring around them.

The general opinion here is that the Russians commenced their retirement in time to escape this inner ring, but they have yet to reckon with the wider outflanking movement from Lomza which, if successful, would win the Brest-Litovsk line.

Danger From North.

An even more serious menace seemingly is General von Buelow's advance in the Baltic provinces. While according to Petrograd the Germans have been thrown back immediately south of Riga, they have made a further advance east to Poniewesch toward the Dvinsk-Vilna-Petrograd railway.

Some critics believe this move means that the Germans, unless they succeed in smashing the Russian army, intend to make a further advance further into Russia and endeavor to force Czar Nicholas to accept a separate peace. With the history of previous invasions of Russian before them, however, it is believed in other quarters that the German staff would hesitate at such a tremendous undertaking.

Along the western front the Germans have made a series of attacks, but all of them, according to the French report, were repulsed.

SEEK HELP IN WEED CUTTING

Club Women Ask for Notification of Overgrown Premises—Committee Doing Much Work.

A lack of co-operation in numerous instances in the matter of registering complaints with the club women has kept the City Federation committee from accomplishing as quick work as it had hoped to do in doing away with all weeds and the cleaning out of unsightly spots in the city.

Wherever cases of negligence in this line were brought to the notice of the club women, prompt action has been taken and the weeds cut and premises cleaned. It is impossible for the committee to visit all places in the city, and property owners adjacent to such overgrown and ill-kept tracts are asked to assist the women by reporting these places to Mrs. W. A. Miller, 222 South Main street, when the matter will be promptly taken up.

This work is necessary for sanitation and health, and much has been done by the club women since the matter was turned over to them. Every individual should feel a personal responsibility in the cleanliness and beauty of the city and co-operate with the club women by reporting all unsightly or overgrown properties to the committee.

Guests of Senator Craig.

Mrs. Arthur Still Craig of Kansas City is visiting Mr. Craig's parents, Senator and Mrs. Anderson Craig, and his sister, Mrs. C. H. Coe, and family.

END TEACHERS' QUIZ TODAY

Examination of Tutors Desiring Certificates Closes This Afternoon—Next in March.

The county examination of teachers who desire first, second or third grade county teacher's certificates, which was begun yesterday in the rooms of the Maryville Business College will end this afternoon. Seventy-five were enrolled yesterday, while several more came in today.

The examination is being conducted by Mrs. O. C. Hanna, for County School Superintendent Bert Cooper, who returned today from Gaynor City where he has been since his mother's death a few days ago. There will be no more examinations until next March.

Those taking the quizzes are being examined on the following subjects today: Civil government, U. S. History, agriculture, algebra, advanced science, physiology, writing, pedagogy, literature, advanced history.

COMMANDS 12 DRILL TEAMS

Ezra Phipps Assumes Charge of Regiment W. O. W. Companies—May Become Colonel.

With the resignation of Major Thomas of St. Joseph as commander of the Second regiment drill teams of the Woodmen of the World, Ezra Phipps of Maryville assumes charge of the entire twelve companies of this regiment, according to notice received by Mr. Phipps from Major A. Linxwiler, brigade adjutant, of Jefferson City.

These companies or drill teams are located one each in Trenton, Macon, Cameron, Maitland, Hemple, Stanberry, Brookfield, Maryville, Chillicothe and Marceline and two in St. Joseph. C. W. Bennett commands the drill team here.

Promise is made that Mr. Phipps will be recommended for the position of colonel of the Second regiment, if a good showing is made by these twelve companies at the tri-state meeting in Nevada next month. This would cause the removal of headquarters to St. Joseph.

Phipps became regimental adjutant last fall.

BOOST CLARINDA FAIR.

Hold Exhibition August 24-27—Beat Others in Publicity.

Posters advertising the Clarinda, Ia., fair, to be held August 24 to 27 inclusive, were placed in Maryville yesterday. The Clarinda leaders seem to be great boosters.

Their Chautauqua was perhaps the best advertised one in this part of the country, yet their talent is not so good, seemingly, as that furnished by the Redpath-Vawter company, which furnishes the talent for the Maryville Chautauqua.

NORMAL TUTOR GOES HOME.

George Palfreyman Will Return for Booster Base Ball Games, However.

George Palfreyman, assistant in manual training and physical education in the Normal, left yesterday afternoon for his home in St. Joseph to spend a month's vacation. Mr. Palfreyman will return for the Booster ball games the remainder of this month. He plays the position of shortstop.

He will return to the Normal in September to resume his work.

OPERATION PROVES SUCCESSFUL.

Ralph Farmer Will Regain Eyesight—Is at Methodist Hospital in Omaha.

Mrs. S. E. Farmer received word this morning from Mr. Farmer, who is at Omaha with their son, Ralph E. Farmer, while the young man takes treatment for an injury to his eye, that the operation which he underwent recently was very successful and, unless complications arise, the sight will be restored.

Ralph has been in the Methodist hospital at Omaha while being treated. His father expects to bring him home tonight.

About ten days ago, while in company with several companions engaged in target practice, a shell exploded and a small particle penetrated the young man's eyeball, causing a severe injury and threatened the loss of his sight.

Scalds Foot by Hot Water.

Miss Frankie Masters, living five miles southwest of Maryville, had her left foot badly scalded yesterday afternoon, when a tea kettle full of boiling water fell off a chair and upset.

Return to Denver.

Anthony Blatter and Joseph Dailey of Denver, Col., who have been visiting at the home of Mr. Blatter's parents, Mr. and Mrs. Theodore Blatter, left this morning for their home.

JOIN IN SERVICES

CHURCHES UNITE IN MORNING WORSHIP AT CHAUTAUQUA.

DR. DICKINSON SPEAKS

Will Hold Sunday School in All Churches at Usual Hour—Night Meetings Deferred.

A union service in which the congregations of the Presbyterian, Baptist, First Methodist, Christian and Buchanan Street Methodist churches will join will be held at 11 o'clock tomorrow morning at the Chautauqua tent. There will be no services Sunday in any of the churches mentioned with the exception of Sunday school, which will convene at the usual hour tomorrow morning.

The Rev. W. B. Dickinson will make the address at the union service, and the music will be given by the Orphean Musical club, which furnishes the music for the Chautauqua tomorrow. Mr. Dickinson is associate secretary of the Playground and Recreation Association of America and is a man of wide experience.

Other Ministers Assist.

The Rev. S. D. Harkness, pastor of the First Presbyterian church, and the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church, will each have a part in the Sunday morning program at the union meeting. The other pastors are out of the city, the Rev. R. L. Finch at the Minister's Retreat, at Camden Point; Rev. G. S. Cox is visiting relatives at Kansas City, on his annual vacation, and Rev. Lewis M. Hale is at Ironton, Mo., attending the annual B. Y. P. U. convention.

The congregations of St. Mary's and St. Patrick's Catholic churches and the First Church of Christ, Scientist, will hold their usual services of the day tomorrow.

The evening worship in the other churches of the city will be deferred on account of the Chautauqua program to be given at the tent.

This service will begin at 7:30 o'clock with a musical program given by the Orphean Musical club, and at 8:15 o'clock Mr. Arthur Kachel will give an interpretative reading, "The Melting Pot."

TO CALIFORNIA UNIVERSITY.

Ray Cook to Complete Course for B. A. Degree at Berkeley.

Ray Cook and Virgil Lyle started yesterday on a month's western trip. The young men west by the way of Texas and New Mexico, will visit various places of interest through the south and then go to San Francisco and the California cities. Mr. Lyle will return to Maryville in September and Mr. Cook will enter the California state university at Berkeley for the coming year.

Young Cook is a son of Mr. and Mrs. J. F. Cook and was a student at the Missouri state university last year. He graduated from the city high school in 1911, from the Normal school in 1912 and from the Gem City Business college at Quincy in 1913, following this by a year at Columbia. He expects to complete the course for a B. A. degree at Berkeley.

On Three Weeks Vacation.

Miss Eleanor Smith and Miss Alice Porter, teachers in the Maryville Conservatory of Music, left this afternoon for a three weeks vacation trip. Miss Smith will visit her brothers, William and Charles Smith, and other relatives and friends in Kansas City, and Miss Porter will spend the time with friends at Joplin.

Conclude Ross Contest.

The hearing in the suit of George P. Ross against J. F. Roelofson, administrator for the estate of Levi P. Ross, who died recently, which was heard in probate court yesterday, was concluded late yesterday afternoon. No decision will probably be announced by Probate Judge W. H. Conn for several days.

To Visit at Clyde.

Miss Bertha LaBouff of St. Joseph and Miss Birdie Merrigan of Clyde who have been visiting at the home of Misses Ella and Veronica O'Grady, west of Maryville, left this morning for Clyde, where Miss LaBouff will spend a few days with Miss Merrigan.

Leaves Estate to Wife.

Mrs. Lucy E. Charles is named administratrix and is given all property of her husband, Albert L. Charles, southwest of Maryville, who died recently, according to the will filed in probate court today.

HOLD BAKER RITES.

Rev. J. H. Hubbard Conducts Services at Home This Morning.

The funeral services for J. W. Baker, who died Thursday afternoon, were held at the family home, 315 West Second street, at 10:30 o'clock this morning, conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church.

The music was given by a quartet composed of Mrs. Alpha Bishop, Mrs. J. D. Richey, H. J. Becker and W. E. Goforth. The burial was made in Miriam cemetery.

RELEASED IN CASE.

Charge Against Former Maryville Man Dismissed in St. Louis Court.

S. L. Craig, an aged real estate and loan agent of Springfield, Mo., a former resident of Maryville, was released from a charge of embezzlement in the criminal court of St. Louis this week when a demurrer to the state's evidence was sustained.

Craig was accused by Mrs. R. L. Goode, whose husband formerly was a judge in the St. Louis court of appeals and now is dean of the law department of Washington university.

She alleged that Craig embezzled $300 of her funds entrusted to him for the purpose of putting it out at interest. A large shortage was found in Craig's accounts some time ago. It was made good by his daughter's sacrifice of their property to help their father.

INTERVIEW WITH RAINES.

What the President of the Board Says About Saloon Licenses After County Court Had Granted Them.

H. L. Raines, president of the board of aldermen, when seen by a representative of this paper in regard to granting saloon license by the city council, says:

"A month or so ago a saloon license was granted to Wm. Heller, at which time Messrs. McDonald and Peery voted against issuing the license.

"The vote on the issuance of the license does not necessarily express the personal views of the members. They know that the license must be granted and simply feel that they are doing their duty and saving the city an extra expense of having a suit brought against them.

"The question was brought up as it was last night, hoping that Messrs. McDonald and Peery would do their duty and help the rest of us bear the burden."

FARM DWELLING BURNS.

House On George Fred Davis Place Destroyed This Morning.

A two-story frame dwelling on the farm of George Fred Davis, three miles south of the city, was burned about 11 o'clock this morning.

The house was unoccupied at the time of the fire, the family who had been living there moving out yesterday. The fire is supposed to have been caused by mice gnawing matches left on the floors. Mr. Davis had an insurance of $750 on the house.

To Visit in Denver.

Ferd M. Townsend has gone to Denver, Col., where he will join Mrs. Townsend and son, who have been spending the past two months with her parents, Mr. and Mrs. Henry Bohm. The Townsends expect to return to Maryville the latter part of next week. They will be accompanied by Mrs. Anna M. Hagins, who has been with them in Colorado.

On Colorado Visit.

Misses Marjorie Wilfley, Dale Hoffman and May Corwin will depart Monday morning on a several weeks trip to Colorado. Miss Wilfley and Miss Hoffman will visit the former's brother, Clifford Wilfley and his wife at Ouray, Col., and Miss Corwin will visit friends at Loveland, Col.

St. Louis Visitors Leave.

Mrs. Charles Lippman and son, Cyrus, of St. Louis, who have been visiting at the home of her parents, Judge and Mrs. C. A. Anthony, and Mr. Lippman's mother, Mrs. Lizette Lippman, left this morning for their home.

BENNETT QUITS; ORDERS 5 WALKS

WILLIAM A. BURRIS BECOMES CITY CLERK TEMPORARILY.

COUNCIL GRANTS BAR LICENSE AFTER FIGHT

John Kane Gets Dramshop Renewal to February on Reconsideration—Approve Addition to Maryville.

What Council Did.

Accepted resignation of Chester Bennett as city clerk, and Mayor appoints William Burris for thirty days to succeed.

Pass ordinances for five new sidewalks.

Receive petition for sidewalk on Halsey from Walnut to alley west of Buchanan.

Order in sidewalk on Short street, First to Second, where ordinance has not been complied with.

Approve of Cedar Summit addition to city of Maryville, west of town, owned by Nathaniel Sisson.

Grant John Kane saloon license until February 6, after fight.

Re-appoint J. H. Killion night patrolman for thirty days.

Hear monthly reports of city officials and departments.

Transfer $200 from cemetery fund to general fund.

Adjourned until Tuesday, August 17, when paving ordinances or remonstrances will be considered.

Chester Bennett resigned as city clerk at the regular meeting of the city council last night and William A. Burris, silo salesman, and formerly night patrolman, was appointed for thirty days by Mayor U. S. Wright to succeed Bennett. The resignation of Bennett becomes effective as soon as Burris qualifies.

Mr. Burris left for Graham yesterday and will not return until tonight but when called by telephone today, said he would accept the appointment.

The resignation of Bennett came after a prolonged fight made against him by six of the eight councilmen. He was appointed city clerk, in April, 1914, for one year, then reappointed from time to time for thirty days, since his appointment.

Fight Saloon License.

Those opposing the reappointment of Bennett, asked that Burt Rowley be named to succeed him.

Those opposing Bennett were: Councilmen Raines, Tindall, Dragoo, Fisher, Garrett and Hahn. Peery and McDonald voted for Bennett each time the proposition came up. Mayor Wright strongly favored Bennett, and refused to appoint Rowley to succeed Bennett.

Bennett is said to have resigned because of a consideration of a traveling position, which he probably will accept soon. But in a way, it means a victory for the opposing faction.

Another logger-head controversy which came up last night was relative to the granting of a dramshop license to John Kane for six months, or until February 6, 1916. In the first presentation all voted no, but Peery and Dragoo, who did not vote.

In a reconsideration of the application later in the meeting, five voted for granting the license, two against and Dragoo, not voting. Those for granting the license in the second vote were Raines, Tindall, Fisher, Hahn and Garrett, while Peery and McDonald, voted against the application. It carried.

Provide New Sidewalks.

The law, however, makes it compulsory where the county court has granted a license, so that it was necessary for the council to reconsider the matter. Peery and McDonald also voted against granting Wm. Heller, a license recently.

Five ordinance bills for ordering in that many sidewalks in the city were passed last night, on presentation of City Attorney W. H. Crawford. A petition signed by ten, was presented for a sidewalk on the south side of Halsey

(Continued on page 2.)

*** THE WEATHER ***

Probably local thunder showers this afternoon or tonight; Sunday generally fair; not much change in temperature.

LEAD BREAKS RECORD.

Increase of 100,000 Tons of Refined Lead Produced in 1914.

Lead is one of the first metals that would naturally be associated with an increased consumption in time of war, and yet the exports of lead from the United States to Europe since the war began have not increased in proportion to the increase in exports of zinc and some other metals, and the price of lead instead of being enhanced by the war actually slumped in October to the lowest point reached in the last 15 years.

These and other facts are graphically presented in the advance statement of the production of lead in the United States in 1914, just issued by the United States Geological Survey.

The total production of refined lead from both domestic and foreign ores was 542,122 short tons, compared with 462,460 tons in 1913. The production of refined lead from domestic ores was 512,794 tons, an increase of 100,916 tons over the record figures reached in 1913. This increase was due chiefly to gains in Missouri, about 42,000 tons; in Idaho, 40,000 tons; and in Utah, 18,000 tons.

The exports of lead smelted from foreign ores were 30,944 tons and from domestic lead ores 58,722 tons, a total of 89,666 tons, larger than in any other year since 1911, when the exports of lead aggregated 113,307 tons.

No domestic pig lead had ever been exported from the United States prior to 1914. Generally the price of lead in this country, owing to the tariff, exceeds the price abroad. Lead smelted in bond from foreign ores is therefore exported instead of domestic lead.

Owing to the civil war in Mexico the imports of Mexican ore for the last few years have been much smaller than heretofore, and there was not enough foreign lead in the United States to supply the demand.

Lead was consistently higher in London in 1914 than in New York, and this, together with the scarcity of Mexican lead, caused the large exports of domestic lead.

Illinois Mines Much Coal.

Despite some strikes and other rather unfavorable conditions in 1914, the production of coal for Illinois during the year was 57,589,197 short tons, valued at $64,693,529, according to figures compiled by the United States Geological Survey of Illinois.

This tonnage is well up with the figures of the years of largest production in Illinois. The supply of labor was plentiful and transportation facilities were adequate throughout the year except during the biennial shutdown, which has now become a regular incident of the spring months of the "even" year in Illinois coal mining, which began as usual on April 1, 1914, and lasted in certain districts from 30 to 60 days.

MISSOURI OVER HALF DRY

Voted Out by 50.2 Per Cent, But 16 Counties, 19 Towns and St. Louis Wet.

The recent dry victories in Missouri have pushed the "drys" above the half way mark in the state.

A careful tabulation shows, according to Dr. Albert Bushnell of the Missouri Anti-Saloon League, that more than half the people of the state live in territory that is absolutely dry. For years more than half the territory has been dry, but on account of the large cities a major share of the population has lived in wet territory.

The figures, which include the recent dry victories, show that 50.2 per cent of Missouri's entire population lives in territory that has voted dry and has no saloons.

Between 75 and 80 per cent of the state's territory is dry. Seventy-nine of the 114 counties have voted out the saloon entirely and exist under the stringent local option laws forbiding the sale of liquor.

Nineteen additional counties are all dry except for one town of more than two thousand five hundred population, which under the present law may vote separately from the county. Sixteen counties and the city of St. Louis are the only entirely wet counties in the state.

"With more than half the population of the state now living in entirely dry territory, Missouri is going to take bigger strides than ever in the war to drive out saloons," Doctor Bushnell commented.

Coal Mined in Alabama.

The coal mined in Alabama in 1914 amounted to 15,593,422 short tons with a value at the mines of $20,849,919. This was a decrease as compared with 1913 of 2,085,100 tons, or 11.8 per cent in quantity, and $2,223,805, or 9.68 per cent in value, according to a statement by C. E. Lesher, of the United States Geological Survey.

A Typographical Error.

"Hell on the Wabash," says the Chillicothe Tribune, is supposed to have been inspired by the Wabash river, but a section boss on the "High Line" through Chillicothe says the piece was never written until after the Wabash railroad built its tracks through the Grand River bottom.

Leaves Estate to Wife.

The will of W. M. Cobb, who died recently at Skidmore, was filed yesterday in probate court. It leaves all property, including farm and property in Skidmore, to his wife, Mrs. Mary A. Cobb.

Guests at Swinford Home.

Mrs. E. W. Lyon of Arkoe and Mrs. Gabe Purcell of Bedison came to Maryville today to spend Chautauqua week with their parents, Mr. and Mrs. G. W. Swinford.

Spend Day Here.

Mrs. Theodore Snowberger and daughters, Lucile and Eula, and Mrs. Charles Shambargar, living near Skidmore, spent today visiting in Maryville.

Notice.

My office will be closed until August 23.

7-9 DR. E. C. BRANIGER.

Get a License to Marry.

A license to marry was issued today to Charles McKee, 22, of Pickering and Beryl McGinness, 22, of Pickering.

Miss Michelson Improving.

Miss Eva Michelson of Bedison, who has been quite ill for some time, is much improved.

Sells Farm for $29,000.

A. J. Cox of Maitland traded his 190-acre farm, north of Maitland, this week for an 80-acre one one-half mile southeast of Skidmore, owned by Charles Owens. The consideration was $29,000.

Name Roy Hanna Administrator.

The will of William S. Wallace, who died at Clearmont, July 17, names Roy Hanna of Clearmont as administrator, according to the copy filed in probate court yesterday.

To Play at Graham.

The Graham and Bolckow base ball teams will play at the Graham diamond, in the Greeson meadow, tomorrow afternoon.

Son at Pennington Home.

Mr. and Mrs. Jack Pennington, living three miles east of the city, are the parents of a son born yesterday.

Skidmore Folks Here.

VACCINE VIRUS IS NOT CAUSE.

Laboratory Tests of Government Determine Tetanus Is Not Thus Attributable.

Interesting scientific studies dealing with the relation of tetanus to vaccination were recently completed by Director John F. Anderson of the hygienic laboratory, U. S. public health service.

Dr. Anderson states that tetanus is never contracted through vaccine virus, and he presents evidence which goes to prove that the limited number of authentic cases developing after inoculation have invariably been due to contamination of the wound subsequent to vaccination.

During the last thirteen years the hygienic laboratory, charged by law with the regulation of the manufacture and sale of vaccines and serums, has examined specifically for the organism of tetanus sufficient vaccine to vaccinate over 2,000,000 persons and in not a single instance was the presence of tetanus bacilli established.

Monkeys, which are susceptible both to vaccination and tetanus, were inoculated with virus heavily contaminated with tetanus spores. While developing "takes" they remained absolutely free from symptoms of tetanus. The same treatment was accorded guinea pigs, equally susceptible to the disease, with similar results.

Moreover the laboratory in several instances fortunately secured the remaining samples of vaccine supposed to have caused tetanus, but examination by the most delicate tests failed to show contamination, conclusively proving that the infection was not contained therein. Records of the army and navy were investigated over a period of eleven years. Not a single case of tetanus, of the eight occuring during that time, was traceable to the 585,000 vaccinations performed.

Since 1904, Anderson has kept accurate records of all cases of tetanus which were supposed to be connected in any way with vaccination and has obtained data covering 41 such instances, 29 of which ended fatally. This is a much smaller number than is commonly supposed. Additional cases were reported, but upon investigation they were found not to be tetanus, or to be clearly attributable to infection through wounds.

These records comprise such data as the number of persons vaccinated, result and character of the operation, the firm manufacturing the virus, and other essential facts. In the majority of the 41 cases studied it was learned that many others were treated with the same lot of virus without harmful effects. This in itself suggests that the vaccine was not the causative factor.

Tests of the virus from the original packages failed to reveal the presence of the tetanus organisms and thus substantiates this conclusion. During the period mentioned, it is estimated from manufacturers' reports that over 31,000,000 people were vaccinated. The investigator concludes that if the virus was responsible infection would have been much more widespread.

Dr. Anderson further shows that under average conditions tetanus develops within 10 days from the receipt of an injury or the time of inoculation. The fact that in the few recorded instances following vaccination indicates that inoculation took place subsequent to the vaccination.

The investigator concludes that where tetanus manifests itself infection is received by contamination of the vaccination wound in the same manner as the infection of any other surgical wound, and that with the ordinary precautionary measures there is not the slightest fear of the development of the disease.

Getting out among the fathers and mothers of the state is the method pursued by Prof. D. R. Haworth of the East Tennessee state normal school, for arousing interest in education. Prof. Haworth and his party recently completed a "campaign" during which they drove 476 miles through eight counties; talked to 21,400 people in 40 rallies; slept in barns or in the school wagon, frequently far from the main road. The educational campaigners had with them a male quartet a string band and three pieces of demonstration apparatus of practical value—a milk tester, a farm gate, and a model of a heating and ventilation system.

BENNETT QUITS

(Continued from page 1.)

street, from the alley west of Buchanan street, west one and one-half blocks to Walnut. The city attorney was instructed to draft such an ordinance for presentation next meeting.

Property owners along Short street from First to Second, who failed to install sidewalks on the west side, as recently ordered, will now have to pay the bill just the same as a result of action of the councilmen last night. The street department will install the walks, then charge it to the owners.

Improve These.

The ordinances for installing new sidewalks as passed last night, provided for the following improvements:

Dewey street—Adjoining two lots on east side of street between First and Second.

Lincoln street—Adjoining four lots on north side of street between Buchanan and Mulberry.

First street—Adjoining two lots on the north side of the William Everhart property between Main and Market.

Third street—Adjoining a half block on north side of street between Market and Vine.

Walnut street—Adjoining half block on east side of Sheriff Edwin Wallace property between Fourth and Fifth.

Add to West Maryville.

A new addition to the city of Maryville was approved by the city council last night. It will be known as the Cedar Summit sub-division, and is owned by Nathaniel Sisson as recently mentioned in the Democrat-Forum. It consists of six lots fronting on Grand Avenue, west of the city, and extends from Fourth or Normal avenue, south one and one-half blocks to the alley between Third and Second.

All but one of the lots will be 100 feet wide and 250 feet deep. One lot will be 220 feet deep. One will be 134 feet wide.

J. H. Killion was reappointed night patrolman for thirty days.

C. W. Lovis, representing the Anderson Fire Truck company of Kansas City, spoke to the council relative to the city buying a new fire truck. He offered one for $4,000 and to take the present one in, on the deal. No action was taken.

Police Court Nets $116.

Reports of Police Judge U. S. Wright and Chief of Police E. C. Moberly showed there were twenty-eight cases in police court during July, netting $116.

Report of James F. Colby, city treasurer for July, shows a total of $287.68 was received.

Report of F. L. Flynt shows only one poll tax was paid in July. It netted $2. They became due in June.

City Clerk Chester Bennett reported the issuance of twenty-nine auto livery licenses from January 1, 1915 to August 1, 1915, netting the city $68. He also reported the receipt of $38.40 for the cemetery fund.

The council transferred $200 from the cemetery fund to the general fund last night.

Adjournment was then taken until Tuesday night, August 17, when ordinance bills for paving streets, recently proposed, will be considered, where sufficient remonstrance has not been made.

Threshing On Sisson Farm.

Paul Sisson has begun threshing the wheat on the Sisson farm, west of the city. Before it was damaged by the storm the Sisson wheat field was one of the finest in the county. George Stafford is superintending the work.

The Rev. and Mrs. L. A. Hughes of Guymer, Okla., are the parents of a son born to them August 3. Mr. Hughes is a son of Mrs. J. M. Hughes of this city.

MAY ADDRESS CLAY COUNTIANS.

Senator Craig Invited to Speak on Land Bank Bill August 26.

Robert C. McIlvain, president of the Pleasant Grove Farmers' club, an organization made up of agriculturists living in and around Kearney, in Clay county, has invited Senator Anderson Craig to the annual outing of that club on August 26 and deliver an address on the working of the new Missouri land bank and the proposed rural credit system.

Through his energetic efforts the bill passed the state senate without opposition. He is thoroughly familiar with the subject.

The annual outing of the Pleasant Grove Farmers' club is a huge event, being attended by farmers and others from Jackson, Lafayette, Ray, Caldwell, Clinton, Buchanan, Platte and Clay counties, many driving and coming in automobiles with their families from a distance of over fifty miles. It is an old fashioned, non-partisan farmers' picnic, and for those reasons it is very popular in that section of Missouri. A year ago, when Governor Elliott W. Major was the chief speaker, the attendance was between nine and ten thousand.

The original intention of the picnic arrangement committee was to have as speaker of the day Colonel Fred D. Gardner of St. Louis, who prepared the present land bank law.

Colonel Gardner will be in California, so Senator Craig will fill the engagement.

This organization is one of the many formed in Missouri in the last five years under the auspices and direction of the state board of agriculture, its object being to promote scientific agriculture and to bring about closer relations between the farmers of Clay county.

A half-penny is one inch in diameter.

STOCK MARKET

File Peter Pearce Will.

The will of Peter Pearce, who died recently at Barnard, as filed in probate court this week, names his daughters, Miss Jennie M. Pearce and Miss Lieurena Pearce, as executrices. He leaves the farm to his sons, Salem Pearce and Frank Pearce. The rest of the property goes to the three daughters, including the executrices and Miss Laura Pearce.

Mrs. Robert Barr and daughter, Blanche, of Des Moines, Ia., who have been visiting at the home of Mrs. Barr's brother, Judge C. A. Anthony, and family, left this morning for their home.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Season Fair Tickets

ON SALE AT FAIR HEADQUARTERS

Six Big Days **These Tickets** Six Big Nights

Are Good for any one member of family day or night show. For instance, daughter in forenoon, wife in afternoon, father at night. Good to all parts of the grounds, grandstand and centerfield. I have been asked why we have raised the price on season tickets. Last year the reduction was one-fifth, this year one-third, and on autos, almost one-half. I only ordered 1000 of these tickets. Take advantage while they last.

Season Tickets $3.00

Auto Season Tickets $2.50

PHONES—OFFICE 42. HOME 683

Miss Hall Hostess.

Miss Mollie D. Hall entertained a party of friends last night at the Empire theater to witness the production of "The Naked Truth," followed by a luncheon at Reuillard's. The guests were Miss Anna Finkbeiner, Miss Ollie Leeper, Miss Louise Finkbeiner and Miss Nelle Talbot.

Spend Vacation in Chicago.

Prof. and Mrs. George Harris Colbert and sons, Philip and Ned, will leave Thursday for Chicago, where they will spend a month visiting with the eldest son, Herschel M. Colbert, who is in the employ of the city press bureau of Chicago. While there the Colberts will occupy the apartments of Mr. and Mrs. George Richard Eaton, formerly of this city, who are leaving Chicago for a several weeks vacation, which will include a visit in this city.

Mrs. Shields Given Surprise.

Mrs. Emma Shields, living near Burlington Junction, was given a surprise party Sunday by the members of the Mount Pleasant Sunday school. The crowd brought everything to serve a good dinner, which was enjoyed at noon. Those present were Mr. and Mrs. George Colter, Mr. and Mrs. Pearl Pence, Mr. and Mrs. Ellett Trueblood, Mr. and Mrs. James Hornbuckle, Mr. and Mrs. Tillie Hornbuckle, Mr. and Mrs. Ed Hornbuckle, Mr. and Mrs. Newton LeGrande, Misses Eva Pence, Ora LeGrande, Letha and Velma Colter, Iva Farren, Cleta Trueblood, Gladys and Ruth Hornbuckle, Messrs. Floyd and Orval Colter, Enos Pence, Alvin and Harold Trueblood, and Mrs. Shields and family.

Society Elects Officers.

The annual business meeting of the Women's Missionary society of the First Baptist church was held Thursday afternoon at the church and the officers for the coming year elected. The reports were submitted and the various details of closing up the records for the year transacted. At the conclusion of the business a picnic luncheon was enjoyed on the lawn. The officers chosen were Mrs. Alex Fraser, re-elected president; Mrs. W. A. Burris, first vice president; Mrs. Clark Andrews, second vice president; Mrs. L. P. James, third vice president; Mrs. W. M. Westbrook, secretary; Mrs. G. W. Hempstead, treasurer; Mrs. William Everhart, collector; Mrs. Lewis M. Hale, organist; Mrs. H. L. Raines, chorister; Mrs. W. A. Bailey, flower committee; Mrs. Omer Catterson, librarian.

Gives Garden Bridge.

One of the most charming affairs of the week and a pretty compliment to a number of out-of-town friends was a garden bridge given this afternoon by Mrs. L. E. Forsyth at the Forsyth bungalow, in West Terrace Place. The afternoon was planned for the pleasure of Mrs. Forsyth's sister, Mrs. Frank G. Shoemaker, Jr., of Oklahoma City, Okla.; Mrs. Paul Ream of Kansas City, Mrs. Harold Ford of Chicago, Miss Margaret Beattie of Newport, Ark., and Miss Mary Shaaber of Reading, Pa., all of whom are visiting in the city. The game tables were placed on the vine covered porch, which had been further beautified with sunflowers. After the games, luncheon was served in the garden, which is just now in full bloom of old fashioned flowers. Mrs. Forsyth was assisted in entertaining by Mrs. E. L. Townsend, Mrs. W. A. Rickenbrode and Miss May Orear. The guests were limited to the members of the Monday Afternoon and Tuesday Afternoon Auction Bridge clubs.

For Miss Brown.

Miss Dorothy Pierce gave a dinner party last night at the Pierce home at which she entertained Miss Nora Brown of Kansas City, Miss Fay Herndon and Jack Holt. The dinner was arranged for the pleasure of Miss Brown, who is visiting Maryville friends.

Miss Swinford Gives Dinner.

Miss Irene Swinford was the hostess of an attractive dinner party given last night at the Swinford home, on South Main street, when she entertained as a courtesy to Miss Hazel Lake of Des Moines, Ia., who is visiting her mother, Mrs. Alice Lake. The table was adorned with pink sweet peas and clusters of garden flowers were used in the rooms. Plates were laid for Miss Lake, Mrs. Alice Lake, Mrs. Mary Albright and Miss Dolly Albright of Logan, Kan.; Mr. and Mrs. G. W. Swinford, Miss Frankie Hallowell, Miss Elizabeth Heffern, Miss Lida Onstott, John H. Wise, W. H. Swinford, and the hostess.

Party On Western Tour.

Mr. C. Edwin Wells and his sisters, the Misses Mabel and Edith Wells of this city, accompanied by Dr. and Mrs. J. A. Wells of Shawnee, Okla.; and Miss Clara Cramer of Bartlesville, Okla.; will start tomorrow on a western tour. They will take the northern route of travel, stopping at Portland and Seattle, then go to San Francisco, Cal., and home by the way of the Grand Canon in Arizona and Lovelock, Nev., where Miss Edith Wells will leave the party to take up her work in the public schools, where she taught last year. The others will return home in the early part of September.

Mrs. Roberts Hostess.

The August meeting of the C. W. B. M. was held Thursday afternoon at the home of Mrs. C. B. Roberts, on East Third street. Mrs. James D. Frank acted as leader, and special readings were given by Mrs. Robert Lyle, Mrs. C. B. Roberts, Mrs. U. S. Wright and Mrs. L. S. Yeo. Miss Floy Lyle, who taught last year in the schools of Porto Rico, and is now spending a vacation with her parents, Mr. and Mrs. Robert Lyle, gave a very interesting talk on her work in the island. Musical numbers were given by Don Roberts and Ernest Moore, and the afternoon concluded with a social hour and luncheon served by Mrs. Roberts, Mrs. Roland Thomas, Mrs. J. H. Vanhorn and Mrs. George Fisher.

Farewell Gathering.

A farewell surprise party was given Wednesday night at the home of Mr. and Mrs. Roy Parent, living in the Harmony neighborhood, in honor of their son-in-law and daughter, Mr. and Mrs. Guilford McKee, who will leave soon for Montana to make their home. The time was spent with lawn games and a delicious luncheon was enjoyed. Those present were Mr. and Mrs. Clyde Patterson, Rev. and Mrs. C. R. Green, Mr. and Mrs. Elmer Porter, Mr. and Mrs. James Lewis, Mr. and Mrs. Bert McKee, Mr. and Mrs. Joe Trullinger, Mr. and Mrs. A. Lawson, Mr. and Mrs. Lee Devore, Mr. and Mrs. Jose Kessler, Mr. and Mrs. R. W. Parent, Mrs. Mary McKee, Mr. and Mrs. Guilford McKee, Misses Lula, Pearl and Florence Johnson, Florence and Mildred Trullinger, Stella, Gladys, Leatha and Lucile Lawson, Pearl and Marie Lewis, Charlotte and Ida Green, Bessie, Doris and Ogie McKee, Mary Kessler, Effie Willis, Hattie Crigger, Edna Furlong, Eva Griffey, Ruth Singery, Gladys, Elsie, Hazel, Irma and Dora May Parent, Messrs. Ralph, Emmett and George Lewis, Ralph, Carl, Virgil, Paul and Wayne Kessler, Everett, Florian, Vilas, Carl and Oral Porter, Leland McKee, Jack Eisman, Cecil, Glen and Pearl Eisman, Charles Wilson, Walter Volke, Charles and Alex Crigger, Ira and Clifton McKee, Fay, Willis and Emmett Parent.

Production of Bauxite and Aluminum.

The production of bauxite and the consumption of aluminum in the United States in 1914 were the largest ever recorded. The report prepared by W. C. Phalen, of the United States Geological Survey, shows an output of 219,318 long tons of bauxite, valued at $1,069,194, in 1914, against 210,241 long tons, valued at $997,698, in 1913. The States which produced bauxite in 1914 were Alabama, Arkansas, Georgia, and Tennessee. Arkansas produced more than 80 per cent of the output.

Children in the public schools of Chattanooga, Tenn., draw maps of South America on which they indicate by marks all places where goods manufactured in their city are sold.

The cat, sheep and turkey are exceptions to the rule that animal species increase in size after domestication. An average wild sheep weighs 100 pounds more than his farmyard cousin.

BIG LEGAL FIGHT ON FISHING BOAT

Lansing and "Ham" Lewis Lawyers In Old Suit.

WAS NAMED AFTER SENATOR

It Turned Out to Be Poacher, Russia Captured It, and Owners Became Indignant—Now, After Twenty-three Years, Lansing Must Adjust Case and Senator Pass on His Action.

Washington.—Senator James Hamilton Lewis of Illinois has a fishing smack named for him, and that fishing smack is at present the cause of international complications between this country and Russia. Furthermore, Secretary of State Robert Lansing has much more to do with the unraveling of that fishing smack disturbance than the ordinary reader would suspect, and the whole story is being told in Washington corridors these days.

The story goes that in the years of 1894, 1895 and 1896 "Jim Ham" Lewis

Photos by American Press Association.

ROBERT LANSING (TOP) AND JAMES HAMILTON LEWIS.

was a struggling lawyer in the city of Seattle, Wash. He had gone there from the south to make his fame and fortune. About the same time a little fleet of fishing smacks began to get in trouble in the north Pacific waters. The boats plied up and down the British and Russian coasts along Bering strait, and they poached in Russian and British territory and were straightway seized by naval vessels of those countries.

The owners retained Lewis as attorney, and he fought all through the various tribunals all the way to the supreme court of the United States, where a victory was gained in a test case for the owners of the ship Coquitlam, the lower courts all being reversed. Then the British owners of interest in these vessels made claim for all their expenses and damages before the British-American claims commission, which was established to hear controversies between the two countries.

Robert Lansing, then almost unknown to fame, appeared as counsel with Lewis. Lansing represented the larger interest and Lewis the smaller. They were successful, and as the result of the victory achieved the clients of Lewis changed the name of one of the smacks to the James Hamilton Lewis, out of compliment to their counsel.

Then the James Hamilton Lewis began to be one of the liveliest little seal poachers in the Pacific and was consequently picked up by the Russian government. The owners made an indignant protest, and the case has been pending between the United States and Russia ever since.

Now the secretary of state, who must adjust the treaty of this subject with Russia, is Robert Lansing, who was chief counsel for the United States end of the controversy before the claims tribunal.

James Hamilton Lewis is one of the United States senators who must pass on the question of whether or not Lansing's work shall be ratified.

The cases started twenty-three years ago. The two men involved have reached eminent places in the world, while their client's case is still in court, and the controversies between Russia, England and the United States on the general fishing and sealing question are still unsettled and are matters of irritation.

Bobbies Get Respirators.

London.—All police sections in London have been equipped with respirators, which will be served out to patrolmen and special constables as a protection against gas bombs in case of a Zeppelin raid on the metropolis.

TALK ABOUT COOL SUMMER, LOOK AT THIS ABOUT 1816

The temperature so far this summer has been extremely low, we will all admit that, so will the readings of the thermometer show it, but remember that 1816 was much colder. If you do not remember that, here are a few facts gleaned from a diary kept in that year, as submitted by H. H. Hankins, 322 North Mulberry street.

The year 1816 was known throughout the United States and Europe as the coldest ever experienced by any person then living. There are persons in Northern New York who have been in the habit of keeping diaries for years, and it is from the pages of an old diary begun in 1810 and kept up unbroken until 1840 that the following information regarding this year with out a summer has been taken:

January was so mild that most people allowed their fires to go out and did not burn wood except for cooking. There were a few cool days but they were few. Most of the time the air was warm and springlike. February was not cold. Some days were colder than in January, but the weather was the same. March, from the 1st to the 6th was inclined to be windy. It came in like a small lion and went out like a very innocent sheep.

April came in warm but as the days grew longer the air, became colder, and by the first of May there was a temperature like that of winter, with plenty of snow and ice. In May the young buds were frozen dead, ice formed half an inch thick on ponds and rivers, corn was killed and the cornfields were planted again and again, until it became too late to raise a crop. By the last of May in this climate the trees are usually in leaf and birds and flowers are always plentiful. When the last of May arrived in 1816, everything had been killed by the cold.

June was the coldest month of roses ever experienced in this latitude. Frost and ice were as common as butterflies usually are. Almost every green thing was destroyed. Snow fell 10 inches deep in Vermont. There was a 7-inch rain fall in the interior of New York State and the same in Massachusetts. There were only a few moderately warm days. Everybody looked, longed and waited for warm weather but warm weather did not come.

It was also dry; very little rain fell. All summer long the wind blew steadily from the north in blasts, laden with snow and ice. Mothers knit socks of double thickness for their children and made thick mittens. Planting and shivering were done together, and the farmers who worked out their taxes on the country roads wore overcoats and mittens.

On June 17 there was a heavy fall of snow. A Vermont farmer sent a flock of sheep to pasture on June 16. The morning of the 17th dawned with the thermometer below freezing point. About 9 o'clock in the morning the owner of the sheep started to look for his flock. Before leaving home he turned to his wife and said jokingly:

"Better start the neighbors soon, it's the middle of June and I may get lost in the snow."

An hour after he had left home a terrible snowstorm came up. The snow fell thick and fast and, as there was so much wind, the fleecy masses piled in great drifts along the windward side of the fences and out buildings. Night came and the farmer had not been heard of.

His wife became frightened and alarmed the neighborhood. All the neighbors joined in the searching party. On the third day they found him. He was lying in a hollow on the side hill with feet frozen; he was half covered with snow, but alive. Most of the sheep were lost.

A farmer near Tewksbury, Vt., owned a large corn field of corn. He built fires. Nearly every night he and his men took turns in keeping up the fire and watching that the corn did not freeze. The farmer was rewarded for his tireless labors by having the only crop in the region.

July came in with ice and snow. On the fourth of July ice as thick as window glass formed throughout New York. In some parts of state of Pennsylvania, Indian corn, which in some parts of the east had struggled through May and June, gave up, froze and died.

To the surprise of everybody, August proved the worst month of all. Almost every green thing in this country and Europe was blasted with frost Snow fell at Barnet, thirty miles from London, England, on August 30.

Newspapers received from England stated that 1816 would be remembered by the existing generation as the year in which there was no summer. Very little corn ripened in New England. There was great privation, and thousands of persons would have perished in this country had it not been for the abundance of fish and wild game.

FARMER SHOULD USE CHECKS.

Government Advises Accounting and Notations of all receipts and Expenditures.

Farmers who do most of their business by check can, with little effort, keep a very satisfactory account of the total farm receipts and expenses says the government agricultural department. Two things are essential for the success of this method:

First. All money received from any source, whether in cash or by check, should be deposited in the bank. By doing this the record of deposits will give the entire farm income. Most important of all, it insures against any moneys being spent without a check or stub to show for it.

Second. When drawing checks, care should be used to state for what purpose drawn. In this way the check stub will give an itemized account of the farm expenditures.

Under this system, checks for money for personal use are drawn in the same way as for any other purpose. At times the purchase of minor articles for farm use will require cash when the amount is so small that it is not desirable to use a check; therefore, to have an exact record a memorandum of the farm items which are paid out of the money checked out for personal use is needed. That is, these items should be charged to the farm, but they are really paid out of the check book to the personal account.

A memorandum of produce exchanged for groceries is also necessary, as there is no cash transaction in such cases.

In using this system it is better to have a large book of checks, which, if the farm business is of moderate size, the banker will gladly furnish with the checks numbered and the owner's name printed on them. A check book of this kind will generally last for a year, thus the advantages of having all the accounts in one book. This check-book system as an aid to keeping financial accounts on the farm is very simple and will prove valuable to a large number of men whose business is adapted to it.

Boys of Williamsport, Pa., are to have a college opportunity that boys in other cities may well envy. Through the will of the late A. D. Hermance, funds are eventually to be made available sufficient to give every deserving graduate of the high school $500 a year for four years while attending Cornell university.

ATCHISON MAY VOTE BONDS.

Petitions Signed by 374 voters Ask for Special Road Improvement Fund.

Petitions signed by 374 voters of various parts of Atchison county have been presented to the county court, in session at Rock Port this week, requesting that a special election be called at once to vote on a proposition to issue $250,000 in special bonds to improve the roads and bridges of all parts of that county.

The election has been called for this month. It is believed the proposition will carry.

ELECT DRAINAGE SUPERVISORS.

Nodaway River Improvement is Delayed by Floods—Suspend Operations.

The annual election of supervisors of the Nodaway drainage district No. 1 was recently held on the J. W. Patterson place. Those present were only supervisors.

W. N. Hodgin was elected to fill a five-year term, and Lum Kunkel was chosen to fill the unexpired term of W. C. Andes. The books of the district were audited by a committee, and Engineer Morris filed his annual report.

The dredge boat has been compelled to suspend operations on account of the flood conditions.—Holt County Sentinel.

To Show Eastland Disaster.

A one-reel motion picture of the Eastland disaster at Chicago recently, in which about 1,000 passengers drowned, will be shown tonight at the Fern theater. The pictures were taken by the Chicago Tribune, the first fifteen minutes after the accident occurred.

The net proceeds from the portrayal of the disaster will go towards a fund to help the widows and orphans resulting from the disaster.

Skidmore to Play Maitland.

The Skidmore base ball team is scheduled to play the Maitland team at Skidmore tomorrow afternoon. A game between Skidmore and Arkoe is set for Sunday, August 22.

SAY APPLE CROP IS SHORT

Predict Half Yield in Northwest Missouri Though Quality Will Probably Be Good.

The apple crop of this section is not up to the average in quantity according to L. V. Crandall, county farm agent of Buchanan county. "Throughout this county it will run from 50 to 65 per cent of average, and in some orchards as low as 35 per cent. I believe the quality, however, is about up to standard.

"As to the duchess, we have comparatively few trees in this section, but they are yielding well, and the quality is good. The wealthies are loaded. Some Jonathan orchards are up to average, and others fall as low as 35 per cent of average. Ben Davis trees are not yielding as well as usual; this is true also of the Ganos, while the Winesaps will be about a half crop.

Heavy rains have interfered with spraying because the ground was so wet that it was often impossible to drive the apparatus through the orchards. Growers who have succeeded in spraying, however, have a good crop, everything considered.

The apple crop throughout the country in general will be only about 50 per cent of last year's. The total yield is estimated at 30,000,000 barrels.

There is a shortage in almost every section of the country, being in the nature of a reaction from last year's phenomenal yield. This does not mean however, that the growers will lose money. It often happens that when the yield is short the price makes up the difference.

Elmo Now Has Orchestra.

Elmo has an orchestra now. The members are Ray Barker, cornet; Ercille Kinman, melophone; Leland Bushey, trombone; Dale Snodderly and Clarence Spangler, violins; Mrs. Tirzah Meek, pianist, and Lewis Maloy, trap drums.

Harlan Hallowell Here.

Harlan Hallowell of St. Paul, Minn., arrived in the city yesterday to visit his mother, Mrs. T. C. Hallowell.

LOOK OUT, FRIDAY, 13TH!

Predict Astronomical Phenomena for Month of August, Beginning Next Week.

St. Louis astronomers predict some dire meteorological happenings this month.

Brother Hubert, professor of astronomy at Christian Brothers college, issued a bulletin warning the population to "look out for squalls" on Friday, August 13. Father Martin S. Brennan, professor of astronomy at Kenrick seminary, declared there will be a shower of meteors Monday and Tuesday nights.

Brother Hubert attributes the present unseasonable weather to sun spots and predicts that it will last two weeks longer.

Virginia Has Good Coal Year.

The production of coal in Virginia in 1914 was 7,959,535 short tons, valued at $8,032,448. This was 868,533 tons less than in 1913, with a decline in value of $920,205, yet the output was greater than in any year previous to 2913, according to figures compiled by C. E. Lesher, in cooperation with the Virginia Geological Survey, and just made public by the United States Geological Survey. The decrease in quantity was 9.8 per cent and in value 10.3 per cent.

LINING UP THE BALKANS

Entente Is Trying to Win Over Bulgaria, Greece and Roumania.

Nish, Servia, Aug. 7.—Another step in the effort for a Balkan agreement so that Bulgaria Roumania and Greece may be mustered on the side of the entente powers was taken here by the ministers of Russia, Great Britain, France and Italy, who made collective representations to Nikola Pachitch, the Servian premier.

The minister's representations were of the friendliest character and were made "in the hope of avoiding friction between the Balkan states and in establishing an entente between them, thus bringing nearer the final success of the allies in the war."

POLAND AS NATION

Kaiser to Preside Over Council to Consider Making It Semi-Free State.

Rotterdam, Aug. 7.—Emperor William, the Courant says, will return to Berlin tomorrow to preside over an important cabinet conference at which the heads of all German states and the Austrian archdukes will be present.

Proposals will be considered for issuing a proclamation declaring Poland a semi-autonomous state and placing it, together with Galicia, under the joint rule of Germans, Austrians and Poles. These plans will be submitted to the reichstag, Aug. 17, the Courant asserts.

Milwaukee Eagles Win First Prize.

Spokane, Wash., Aug. 7.—The Milwaukee aerie of Eagles won the first prize in the $3,000 contest in the exemplification of the ritual at the grand aerie of the Fraternal Order of Eagles here. In the military drill judged by United States army officers the Helena team won first prize of $100 and the Milwaukee team second of $50.

GENERAL SCOTT ON WAY TO EL PASO

Will Confer With Villa and Other Factional Leaders.

Washington, Aug. 7.—Major General Hugh L. Scott, chief of staff of the United States army, accompanied by Lieutenant Colonel Robert E. Michie, a member of the general staff, left Washington for El Paso, Tex., to confer with General Francisco Villa and other revolutionary leaders there regarding the Mexican situation.

The occupation of the office of the port and the national palace, gave the Americans the last positions held by the Haitiens. The populace has been thrown into consternation by the operations of the Americans.

The president of the senate in the name of the nation cabled Solon Menos, Haitien minister to the United States, a new protest against the occupation of Haitien territory by American naval forces.

CAR BREAKS DOWN IN DESERT

One of Its Three Occupants Dies of Thirst.

Los Angeles, Aug. 7.—Failure to think of putting water in an automobile radiator brought death to one man and frightful tortures to two others, who arrived here from the desert and told of their sufferings.

The trio, James S. Roche and John H. Welsh, attorneys, and James G. Clark, a real estate dealer, left here Sunday in an automobile for El Centro in the Imperial valley.

Monday morning the car stopped in the sand. The passengers found the radiator empty and had no water. Roche and Welsh started after a mirage, which they believed was the Salton sea. Clark waited a day and then, believing them dead, made his way to Mineral Springs, where he was resuscitated and organized a rescue party. They found Roche unconscious and Welsh dead. Roche said they drank lubricating oil.

SPAIN STRENGTHENING ARMY

Alfonso Preparing to Defend Domain After Present War Ends.

Madrid, Aug. 7.—The Spanish government recently has been active in the preparation of military and naval armament. Artillery, small arms and projectile factories are working night and day.

Military and naval commissions have left for the United States and Italy for the purpose of acquiring arms and ammunition, as well as the machinery for their manufacture. There is talk also of the acquisition by Spain of a number of submarines and of large quantities of mines for coast defense purposes.

It is said that the motive behind these warlike preparations is by no means to enter the present European conflict on either side, but to strengthen Spain and to prepare it for any event which may follow the present war.

MAKE HOLIDAY OF HANGING OF NEGROES

Starkville, Miss., Aug. 7.—Peter Bolen and Jim Seales, negroes convicted of killing another negro, were hanged in public here, the gallows being built in a natural amphitheater which afforded the crowd of several thousand, including many women, an unobstructed view of the hanging. Soft drinks and candy venders sold their wares among the crowd while it waited for the executions.

Tribby, Fla., Aug. 7.—A mob attacked the jail at Dade City, overpowered the jailer and lynched Will Leach, a negro charged with attacking a white girl.

MARINES TAKE HAITIEN PALACE

Seize Office of Port, National Building and Gunboat.

ONE OF NATIVES IS KILLED.

Yankee Sailors Open Fire and an Islander Loses His Life In Fray. American Naval Forces Now In Charge—More Marins Will Be Sent.

Port au Prince, Aug. 7—American naval forces took possession of the office of the port, the national palace and the Haitien gunboat Pacifique.

During the movement to take the office of the port the Americans opened fire on the Haitiens and one Haitien was killed.

It was reported that the general form of the final appeal to the factional leaders had been agreed upon by the conferees and adjournment taken while Mr. Lansing laid it before the president. The secretary was said to be at work on a draft of the appeal in consultation with Secretary Lane, who has kept in close touch with the Mexican situation. The appeal will be addressed to the Mexican people. Copies will be presented to the various Mexican leaders, to the governors of the Mexican states without regard to the faction they represent, and also be circulated throughout Mexico by American and Latin-American consular officers bearing the ratification of all South and Central American governments.

More Marines Ordered to Haiti.

Philadelphia, Aug. 7—It was reported here that a regiment of marines has been ordered to Haiti. It was said the marines will leave here Monday on the cruiser Tennessee.

DUN'S REVIEW OF TRADE

Vagaries of Weather Halt Commercial Progress.

New York, Aug. 7—Dun's Review says:

Commercial progress would be more uniform were it not for the vagaries of the weather, especially in the east. Apart from these handicaps developments continued mainly on the constructive side. Rarely have fundamental conditions been as sound as at present, and knowledge of this fact leads to the conviction that nothing is likely to permanently check the revival of general business activity. New measures of trade improvement and expansion are afforded by the monthly statistics and notable among these are the failure figures, which, instead of showing the customary July increase in number, disclose fewer losses than in June. Turning to the iron and steel situation it is said that the output of pig iron has risen to the highest point in fully two years. So urgent have the demands for steel products become that the mills in some instances are behind in deliveries and quotations are steadily advancing. Progress in manufacturing elsewhere has not set the same pace; most shoe factories are running close to capactiy and there has been a noticeable revival of operations in the woolen industry, but the largest plants turning out blue denims have shut down for an indefinite period because of the shortage of dyestuffs. Labor conditions are improved by the adjustment of differences in the clothing trade, although troubles continue in some other lines.

Train Speeds With Dead Man as Pilot.

Columbus, O., Aug. 7.—When a Big Four passenger train speeded through Georgesville, a small station near here, without stopping, as usual, the fireman pulled the coat of Engineer William Quinlan to attract his attention and found that the engineer was dead.

GRAIN AND PROVISIONS

Closing Quotations on the Chicago Board of Trade.

Chicago, Aug. 7.—Closing prices: Wheat—Sept., $1.06⅝; Dec., $1.06⅞.
Corn—Sept., 74⅝c; Dec., 63⅝c.

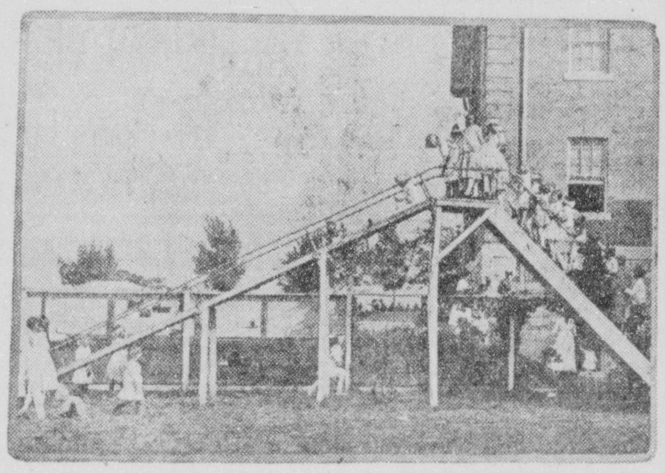
McLoughlin Winner Over Williams.

Boston, Aug. 7.—Maurice E. McLoughlin of San Francisco defeated R. Norris Williams of this city, the national lawn tennis champion, in the challenge match of the Longwood singles, the oldest tennis tournament under club auspices in the United Sates. The score was 6-3, 6-3, 2-6, 6-2.

Steamer Costello Sunk by Submarine.

London, Aug. 7.—The British steamship Costello, of 891 tons net, has been sunk. The crew, with the exception of one man, who was drowned, has been saved.

THE LITTLE FOLKS AS WELL AS THE BIG FOLKS FIND THE MISSOURI STATE FAIR THEIR FAIR.



Little folks who are so fortunate as to be privileged to attend the Missouri State Fair at Sedalia find its crowds and its action and life great sights, but when they tire of the crowds and the big sights of the fair and seek childish recreation in play and rest it is to find that their every desire in this direction has been anticipated.

Not only is there a children's hospital and nursery in connection with the Woman's building, but there has been erected at the rear of the Woman's building, in a permanent and pleasant enclosure, a children's playground where all the most modern equipment is arranged for their amusement and recreation. Here mothers may "check" their little ones safe and secure in the assurance that they will not only be well and safely cared for, but that they are enjoying the most healthful exercise under the most pleasant environment. Children who are in Sedalia and the Missouri State Fair grounds from September 25 to October 2 will find the model playgrounds a delight and joy.

GOOD TEETH; GOOD HEALTH

Investigations Show That Much Depends on Molars—Discover New Treatment of Pyorrhea.

According to the United States public health service there will be a falling off in the sale of store teeth in the future, and plates and toothless gums will be seen less frequently than formerly. This is due to the epoch making discovery of the cause and method of treating what is known to the scientist as pyorrhea dentalis and alveolaris and to the layman as Rigg's disease.

This is a suppuration around the roots of the teeth and causes an inflammation which produces loosening and loss of the teeth. At one time or another practically everybody has Rigg's disease. It is caused by a minute single celled animal called the endamoeba buccalis. This malevolent parasite does its work in combination with the pus-producing bacteria or germs. The skilled teamwork between these two destroys the delicate membrane which surrounds the roots of the teeth and causes them to fall out.

The necessity of good teeth in order to have good health has been recognized a long time, but the scientists of our country have only recently worked out the relationship between decay of the teeth and Rigg's disease on the one hand, and rheumatism on the other.

So firmly have these facts been proven that the modern up-to-date physician begins the treatment of such diseases by an inquiry into the condition of the teeth and their sockets. If these are found to be diseased, the condition is cured before the treatment goes further. The discovery of the cause of Rigg's disease is, therefore, of the very greatest importance.

Just as soon as the cause of Rigg's disease was found out, the search for the cure began in earnest. It had been previously discovered that the use of ipecac would cure the diseases which are causesd by infection of the intestine with endamoebae. From this it was duced that a similar treatment would cause the destruction of endamoebae in the mouth.

This was found to be the case, and emetin, the form of the drug used, is now administered by physicians for the cure and prevention of the disease. It sometimes takes a considerable time to get rid of all of the malignant germs in this way but the results which have been obtained have been remarkably good. The treatment is both local and general.

In the matter of preventing mouth disease, it is important that the mouth be cleaned several times a day, and that a dentist be visited frequently to remove tartar and the yellowish matter which accumulates along the inner edges of the teeth and btween the teeth.

This is particularly important in the case of children, because it has been found that many a child is apparently dull who is in reality suffering from a chronic poisoning produced by a mouth full of dcaying teeth.

The number of sufferers from Rigg's disease in the United States is very large and the United States Public Health Service is daily receiving inquiries as to the method of curing and preventing the disease.

Production of Portland Cement.

The total production of Portland cement in the United States in 1914, according to Ernest F. Burchard, of the United States Geological Survey, was 88,230,170 barrels, valued at $81,789,368; the production for 1913 was 92,097,131 barrels, valued at $92,557,617. The output for 1914 represents a decrease in quantity of 3,866,961 barrels, and a decrease in value of $10,768,249. The value assigned to the production is computed on the basis of 92.7 cents a barrel, or the average value of the Portland cement shipped in 1914.

Guest at Burris Home.

Mrs. Susan Case of Gordon, Neb., is visiting in the city, the guest of her nephew, W. A. Burris, and family.
